Meeting planned on effects of fire

"What happens to a small town when a thousand people show up and stay for a couple of weeks?" If a big fire happens this summer on the Heppner Ranger District, the town of Heppner may have to face this question.

In order to provide information and answer questions, the Forest Service and the Oregon Department of Forestry are co-sponsoring a town hall meeting at St. Patrick's Senior Center in Heppner at 7 p.m. Tuesday, July 14. Les Holsapple, the Umatilla National Forest's fuels management specialist and Frank Vetter, from the Oregon Department of Forestry, will be among a panel of speakers.

The speakers will discuss and answer questions relating to the management of large fires. Trained teams will arrive from various other locations, and arrange with the local community ways to provide equipment, food, supplies and other logistical support to a major fire effort, while minimizing disruption to local lifestyles, transportation and commerce.

Community leaders, emergency services personnel, and businesses are invited to attend. Topics will cover economic and

social events to the community, emergency procedures such as transportation and evacuations, contracts and purchases, and public information.
