## Test your diamond I.Q.

Q. IS A LARGE DIAMOND ALWAYS MORE VALUABLE?

A. Not always. A smaller stone of finer color and more precise cutting - to show the fire - can be considerably more valuable than a larger gem of less quality. Cutting, color, clarity and carat weight are all important factors. As a member of the American Gem Society, we'll help you strike the right balance. AGS affiliation is awarded only to those jewelers who qualify on the basis of gemological knowledge and high ethical standards. Come in soon and let us explain the "Four C's" of diamond value to you.
