# Oregonians Against Measures 5 & 6

**Roby Roberts**  
Energy Policy Analyst  
Member, Portland Public Schools Board of Education

*"I'm squarely against an immediate shutdown of Trojan. An immediate shutdown, as called for in Measures 5 and 6, would not allow time to develop new energy sources and would mean higher electric bills for consumers."*

**Measures 5 & 6 would each:**

**Immediately shut down Trojan.**

The immediate shutdown of Trojan, called for in Measures 5 and 6, would leave no time to develop new replacement power resources...power shortages in Oregon could result.

**Immediately cut off nearly 20% of our state's electricity supply.**

Measures 5 and 6 would completely cut off all electricity produced by Trojan shortly after the November election. With the region's electricity supplies already tight, we can't afford the immediate loss of Oregon's single largest power plant.

**Cost us about one-half billion dollars in higher electric bills.**

Studies estimate that the immediate shutdown of Trojan, as called for in Measures 5 and 6, would cost Oregon ratepayers about one-half billion dollars more than the plan for an orderly 4-year phaseout of Trojan.

**Cause about 1,000 workers at Trojan to immediately lose their jobs.**

Measures 5 and 6 would immediately force nearly 1,000 men and women at Trojan out of work. The existing 4-year phaseout plan would allow time for Trojan workers to be retrained and find new jobs.

## Stop the Immediate Shutdown Vote NO on 5 & 6
