

Ione Cardinals keep perfect record

By Anne Morter

The Ione Cardinals kept their league record perfect over the weekend, downing a much-improved Helix team Friday night, Jan. 29 and pulling out an important win over Wasco County on Saturday, Jan. 30. Both games were played in front of an enthusiastic home crowd.

The Card's league mark now moves to 9-0 and their overall season record improves to 12-4.

The last time Helix met Ione, Ione trounced Helix by 44 points. This time, Helix came looking for an upset, but got upset themselves 75-55. For the first three quarters, it looked like they might get it. The Grizzlies led 19-17 at the end of one and 35-31 at the half. But thanks to a key three-point bucket at the buzzer by sparkplug, Jake Bacon, the Cards started to regain their momentum.

With two minutes to go in the third period, Ione finally took the lead, 43-41. With increased defensive pressure and improved ball movement, the Cards put on a spurt that changed the game from a two-point game to a 20-point game. The final score was 75-55.

Aaron Heideman led all scorers with 23 points. Jim Logan added 17 points, which included three treys, two in the big fourth quarter. Heideman also had nine boards as the Cards out-rebounded the Grizzlies, 37-15. Logan had four steals and David Wagenblast handed out 11 assists. Wagenblast also had three blocked shots in the game.

Ione shot 30 of 54 from the field for an outstanding 56 percent. That percentage was bolstered by hot 11 of 16 shooting in the fourth quarter. At the line, they canned 10 of 14 for 71 percent. Helix was no slouch in the shooting department either, making 22 of 46 for 48 percent from the floor and eight of 12 for 67 percent from the line.

PGT-PG&E PIPELINE EXPANSION PROJECT

Bechtel Corporation, project manager, announces the beginning of 1993 construction of the PGT-PG&E Pipeline Expansion Project. As was done in six other Oregon counties in 1992, Bechtel and its contractors are installing a second pipeline parallel and interconnecting with an existing natural gas pipeline, a process known as "looping". The second line is being constructed largely within the existing right-of-way, from the Canadian-U.S. boundary to a terminus in central California. When completed, the project will transport over 900 million cubic feet of natural gas per day to serve markets in the Pacific Northwest and California.

Approximately 70.3 miles of construction will be completed through portions of Gilliam, Morrow and Umatilla counties in northern Oregon in 1993. In Morrow County, approximately 34.5 miles of pipeline will be installed, from a point on the Gilliam County line two miles south of Eightmile Canyon, to where the route enters Umatilla County five miles north of Butter Creek Junction (midway between Highway 30 and Route 207).

Construction will begin the second week of February. Selected portions of the 11 miles between Gilliam County and Willow Creek (at Ione) will be completed by mid-April, to avoid impacts to several special status animal species during their reproductive season. The remainder of this section will be constructed beginning in early July, with final testing and restoration completed in mid-October.

Northeast of Ione, construction will also begin the second week of February and proceed northeastward; installation of this section will be completed the first week of May.

Final testing and restoration of the entire 70.3 miles will take place from August to October.

Gregory and Cook, Incorporated of Houston, Texas was hired by Bechtel to construct approximately 151 miles of the Expansion Project in Oregon, of which 80 miles was constructed in 1992. The entire 850-mile project, which traverses portions of Idaho, Washington, Oregon and California, is scheduled for completion by November 1993.

If you have any questions concerning the Expansion Project, please call the toll-free public information line at 1-800-933-8589.
