## PUBLIC NOTICE HEPPNER RANGER DISTRICT

PROPOSES 1993 NOXIOUS WEED CONTROL PROGRAM

The Heppner Ranger District of the Umatilla National Forest is currently conducting an environmental analysis for the proposed 1993 Noxious Weed Control Program. This weed control program will be designed for the manual and/or biological control of noxious weeds. Noxious weeds are defined as species of plants that cause disease or are injurious to crops, livestock, or land, and thus are detrimental to agriculture, commerce or public health.

The overall goals of noxious weed control activities are to limit the spread of such plants, reduce their numbers to a point where they cause no significant economic damage, and where feasible eradicate them. This analysis will not consider the use of chemical application, i.e. herbicides.

This program will include all National Forest lands on the Heppner Ranger District. Additional information may be attained by contacting Elwood Stout or Travis Moseley at the Heppner Ranger District office (503) 676-9187. Public participation is encouraged in the planning process; anyone wishing to provide input or express concerns should do so in writing. This input must be received by March 12, 1993. ## PUBLIC NOTICE THE HEPPNER RANGER DISTRICT

PROPOSES SUBSOILING PROJECT TO PREPARE TIMBER SALE UNITS FOR PLANTING AND NATURAL REGENERATION, AND TO CONDUCT MECHANICAL THINNING OF IMMATURE LODGEPOLE PINE STANDS

The Heppner Ranger District of the Umatilla National Forest is currently working on the Environmental Analysis for the proposed 1993 Subsoiling Project. Harvest activities have resulted in compacted soil conditions which make regeneration difficult. Subsoiling would relieve the soil compaction and allow for the tree seedlings to become established. The mechanical thinning would reduce vegetation competition and relieve soil compaction within immature lodgepole pine stands. Stand health, wildlife cover development, watershed values, and noxious weed control are some of the identified issues and/or concerns which will be considered during the analysis.

The subsoiling activities are proposed within harvested units of the following timber and salvage sale areas:

Dry Swale/Ditch, Keeney Seed Tree, West End Seed Tree, Indian, Mallory Lodgepole Pine (LP), Scattered LP, Dry Swale LP, Swale LP, Jackpot LP, Coal LP, Scattered LP, Spring LP, Chips Ahoy LP, Texas LP, Grapple LP, Potamus LP, Gilbert LP, Brush LP, and Suffering LP.

This project could include 450 acres of subsoiling for site preparation for natural regeneration, 375 acres of subsoiling for site preparation for planting, and 455 acres of mechanical thinning using a subsoiler.

Additional information may be attained by contacting Ben Smith or Ralph Walker at the Heppner Ranger District, Silviculture Dept. (503) 676-9187. Public participation is encouraged in the planning process. Anyone wishing to provide input or express concerns should do so in writing by March 5, 1993. Send comments to:

## PUBLIC NOTICE

The weight limits on Morrow County roads are removed as of February 8. It is not anticipated that the limits will have to be reinstated the rest of this year unless unusual weather occurs and then the limits would most likely be placed on just a few roads which have unusual soil conditions. The Morrow County Public Works Department appreciates the understanding and cooperation of road users in the protection of the roads.
