Entries up for wool contest

By Anne Morter

The number of entries are up in this year's "Make It Yourself With Wool" contest, reports event coordinator Maureen Krebs of Cecil.

The public is invited to attend a fashion show on Thursday, November 11 starting at 1 p.m. at the Ione High School cafeteria. There is no admission charge to the event which will also include

the presentation of awards and tea for participants and spectators.

Entries for the District 5 contest have arrived from as far as Hood River, Milton-Freewater and Pilot Rock. Jimi Kaye Alexander, a perennial winner in the senior division, returns to defend her title for the last year in this age category. Also, Tapia Hanson of Parkdale, last year's pre-teen winner, is a confirmed entry.

Krebs is pleased with the increased interest in the Make It Yourself With Wool contest, noting a large turnout in the junior division and a healthy increase in the adult category.

Garments will be judged in the morning, initially on the contestant for style. Next, the outfits are examined for quality of construction and durability. Winners will be announced at the conclusion of the fashion show. Winners in the junior and senior division will advance to state level competition, to be held December 4 in Florence in conjunction with the Oregon Sheepgrowers Association.

Ione Garden Club

learns about weeds

The program for the Ione Garden Club Oct. 13 was "Garden Weeds-Their Recognition, Control and Eradication", presented by Birdine Tullis.

Members brought samples of weeds they found in their garden or along the roadside. These included Spiny (clot) burr, Kochia, buttonweed (cheese plant), nightshade, purslane, prickly or China lettuce, chickweed, dandelions, oxalis, puncture vine, floodweed and quackgrass. Some other weeds gardeners are concerned about are the yellow star thistle, knapweed, toadflax, tansy, goatgrass and lythrum (purple loosestrife).

There are two suggested methods of control-manual, such as the use of a hoe, shovel or cultivator and then burning them, or the use of chemicals. Chemicals include contact herbicides (Roundup, Knock-Out or Kleenup) effective residual herbicides that will kill weeds or prevent their emergence include Casoran or Dacthal. Sterilants may also be used but these prevent all growth for many years. Brush control such as on fence rows, ditch banks, driveways and around buildings may be acquired by using Amitrol-T or Brush-BoGone. This will also prevent stumps from sprouting. The most important precaution in using chemicals is to read the directions and follow them carefully.

During the business meeting it was reported that six members attended the Blue Mountain District #10 meeting in Condon October 8. Club yearbooks were distributed. It was reported that the finance committee of Cycle Oregon VI will be meeting soon to dispense monies earned by the groups that cooperated in this project.

The next garden club meeting will be at the home of Leila Palmer with a representative of the Heppner Ranger District leading discussion on the "Status of the Umatilla National Forest in Morrow County". Elaine Belts, district #10 director, will be a guest.
