

Thanks for helping make us a part of the community.

We'd like to thank all of you who showed up to support the Coyote Springs Cogeneration Plant at the Oregon Department of Energy's October 28 public hearing at Riverside High School. We also appreciate the support and encouragement of the many more of you who were unable to attend the meeting, but who were with us in spirit.

Your strong backing of this important project is critical to obtaining the necessary permits to begin construction of Coyote Springs.

Coyote Springs will benefit the citizens, the businesses, industries and essential public services that make Morrow County a great place to live and work. We're excited to be a part of such a positive effort.

Thanks, again, for your support and for inviting us to be part of this growing community.
