### Sinus Problem: Our No. 1 Chronic Disease

According to the National Center for Health Statistics, the most common chronic health problem experienced by Americans is sinus trouble or sinus disease. The Center reports that some 33 million Americans suffer with sinus problems. The primary problems include inflammation and infection.

The sinuses are air-filled cavities located within the facial bone. Of the four sinus cavities, the most commonly affected include the frontal sinuses (in the forehead just above the eyes) and the maxillary sinuses (in the cheek bones below the eyes). Normally these areas are kept clear when mucus drains through them into the nasal passages. If these areas become obstructed, such as from a cold, allergies, or facial injuries, they are not able to drain properly. Trapped mucus can become infected. Sinus infection may cause facial pain, headache, sore throat, slight fever, and nasal discharge.

Sinus infection is treated by draining affected areas and killing the organism causing the infection. Nasal decongestants such as phenylephrine or oxymetazoline may be applied locally in the nose as drops or as a spray. Oral decongestants include phenylephrine, phenylpropanolamine, and pseudoephedrine. Antibiotics may be needed for up to six weeks to clear the infection. If these measures are not effective, surgery may be necessary.

Bob Kahl, John Edmundson, Steve Rhea, Bill Kuhn, Rollie Marshall, Jim Wishart, Kenny Turner, Todd Lindsay, Phillip Spicerkuhn, Steve Dickenson and Vern Keithley shoveled gravel and used a backhoe to prepare the ditches for services to the planned 24 spaces at the park.

Willow Creek Park board-member Bob Kahl said the RV park was "moving right along" and that another work party

would be needed to cover up the ditches once the services were installed. Blocks for the restrooms and shower building will be going up soon, so people would be able to better see some progress at the park, added Kahl.

## Koffler, Heideman play in Shrine game

Richard Koffler Aaron Heideman

The 42nd Annual East-West Shrine Football game held at Baker City on Saturday, August 13, ended in a 14-14 tie.

The game, played by the best 3A, 2A and 1A football players in the state, included local players, Rick Koffler of Heppner, Aaron Heideman of Lone, Brian Pursiful of Umatilla, Chet Mills of Weston-McEwen, Eric Olson of Mac Hi and Nate MacRostie of Culver.

The East scored first with Cory Maag of Vale scoring on a five yard run in the first quarter. Kris Jensen of Baker kicked the pat for a 7-0 lead.

The West struck back with an 84 yard pass play from Todd Roberts of Mohawk to Travis Paulson of Newport. The pat was unsuccessful and the East led 7-6.

The East scored late in the second quarter on a touchdown drive engineered by quarterback Rick Koffler. Maag scored again from one yard out and Jensen added the pat for a 14-6 halftime lead.

The West team scored in the third quarter on a five yard run by Jeff Ediger of Dayton. The pat was nullified by an offensive pass interference call.

The West trailed 14-12 late in the fourth quarter when the East stopped the West four times inside the four yard line and seemingly had the game won with 2:28 remaining.

The West tackled the East ball carrier in the end zone on the next play to tie the game. The game ended 14-14.

Both Koffler and Heideman played well on special teams and offense and represented their schools and communities well.
