

## DA's Report

The Morrow County District Attorney's office in Heppner reports handling the following business during the past week:

Jan. 11: Edward Ted Martinez, Boardman, was convicted of Possession of a Controlled Substance and Driving while License Suspended. In February 1995, he was charged by the Morrow County Sheriff's office for possession of methamphetamine. He was sentenced to 10 days in jail or electric surveillance. He was to be evaluated and undergo drug and alcohol treatment, pay a \$10,000 fine, all suspended except for \$750. For driving while license suspended, he was sentenced to

180 days in jail, all suspended, 80 hours of community service, \$1,500 fine, all suspended except \$565.

David Wayne Garrett, 20, Lake Elsinore, CA, was convicted of Unauthorized Use of a Motor Vehicle and Theft of Services, stemming from an incident occurring on Dec. 12, 1995 where he allegedly stole a pickup from the Boardman area and neglected to pay a bill from the Nugget Motel, Boardman. He was ordered to serve 30 days in jail and perform 40 hours of community service, pay \$492 restitution. A \$2,500 fine was suspended. His restitution was to be jointly served with Mark Eldon Nelson.

Mark Eldon Nelson, 30, Albany, was also convicted of Unauthorized Use of a Motor Vehicle and Theft of Services from the same incident and received the same sentence.

Larry Alan Perrin, 19, Irrigon, was convicted of Unauthorized Use of a Motor Vehicle, stemming from a situation Sept. 20, 1995 where he allegedly took an automobile from a residence in Irrigon and subsequently wrecked the vehicle. He was ordered to pay a fine of \$15,000, suspended on the condition that he pay \$7,450 in restitution for damage to the vehicle; 30 days in jail was also suspended.

Mark A. Linder, The Dalles, formerly of Pendleton, had Probation Revoked and was ordered to serve 5 days in county jail and to pay \$150 against outstanding fines and assessments owed as a result of a conviction for Felony Driving while License Suspended in May 1993.

Steven L. Graff, 41, Irrigon, violated his terms of probation previously imposed and was ordered to serve six months in county jail. It was alleged that Graff continued to harass and annoy his ex-wife, which was a breach of his probation for Criminal Mischief. He had previously been sentenced Aug. 4, 1995 and was to have no contact with his ex-wife as a condition of his sentence.

Trial was set in Morrow County Circuit Court on Jan. 11 for Roy Richard Rush, who had previously been charged with Possession of a Controlled Substance (methamphetamine) and Criminal Mischief II, stemming from an incident which occurred at the Dodge City Inn in Boardman, April 6, 1995. Rush failed to appear and a bench warrant was issued for his arrest.

## Twice Upon a Time... now offers color copies

Twice Upon A Time... now offers on-site color copying services. The used-book store in Heppner has a Xerox Digital Majestik Color Copier that produces high quality copies in full color and in black and white.

"We decided to invest in a lease-option on the equipment because all of us are surrounded by color, which has proven many times more effective than black and white printing when we want someone's attention," said owner Doris Brosnan. "Many Heppner residents dis-

covered a long time ago the usefulness and just plain pleasure of colored printing, but they have either had to travel 50 or 60 miles to get colored copies or had to wait for mail transactions. That is expensive and time-consuming, obviously. We don't think that just because Heppner, Fossil, Condon and Spray are distance from more populated areas that we need to go without the color option."

"We realize that the next three months will determine whether we keep the machine or not," Brosnan said. She added they expect to see colored and black and white copies of documents and newsletters, multiple copies, enlargements of colored photographs and copies of forms for businesses. Several customers have already used the copier for enlarge-

ments of old black and white family photos and have been impressed with the quality of the copies, she said.

Brosnan has created three calendar formats that people can use to make personalized calendars with their own photographs and important personal dates. Another use for the machine is the making of local sports cards and buttons.

"Dan (Brosnan's husband) agrees that this technology is truly impressive," Brosnan concluded. "We have been delighting in the variety of uses the copier provides. We are convinced that color has a place in businesses and the schools because it aids in comprehension and retention of information. Color is more expensive than black and white copying but is definitely worth the difference because it offers so much more."

## IUCC plans anniversary celebration

## Hosts sought for exchange students

ASSE International Student Exchange Programs (ASSE) is seeking local host families for boys and girls from many European countries, Mexico, Brazil, Japan, Canada, Australia and New Zealand.

The students, 15-18 years of age, will be coming to this area for the upcoming high school year. These exchange students speak English, and "are bright, curious and anxious to learn about this country through living as part of a family, attending high school and sharing their own culture and language with their host family," said a ASSE news release. The students are sponsored by ASSE, a nonprofit, public benefit organization, founded by the Swedish Ministry of Education.

The exchange students arrive from their home country shortly before school begins and return at the end of the school year. Each ASSE student is fully insured, brings his or her own personal spending money and expects to bear his or her share of household responsibilities, as well as being included in normal family activities and lifestyles.

The students are screened and qualified by ASSE. Families may select the youngster of their choice from student applications, family photos and biographical essays. Students and families are encouraged to begin corresponding prior to the student's arrival.

ASSE is also seeking local high school students to become ASSE exchange students abroad. Students should be between 15-18 years old and interested in living with a host family, attending school and learning about the land and people of different countries.

Students should have a good academic record and want to experience another culture and language through living with a volunteer family. Academic year and shorter term summer vacation programs are available.

Those persons interested in obtaining more information about becoming a host family or becoming an exchange student should contact ASSE's local representative, Cathy Halvorsen at (541) 422-7107, or call toll free 1-800-733-2773.
