Someone You Know Is An Oregon Lottery Winner!

Since the first Oregon Lottery ticket was sold in 1985, over \$1.3 billion in Lottery dollars have created hundreds of thousands of "winners" in communities throughout Oregon. Some of those winners are likely your friends and family. And many of them didn't even play!

It could be your neighbor who has a job at the new semiconductor plant in town. Just one of the thousands of jobs created throughout Oregon as a result of over \$150 million in Lottery funds used to create jobs and strengthen Oregon's economy.

Oregon's students - including your niece, grandchildren, or son - are getting a winning start on their future thanks to nearly \$250 million in Lottery proceeds that are helping fund Oregon's public schools each year.

And your Aunt Rosie may be among the Oregon Lottery players who have won over \$11 billion in prizes since the Lottery began!

Take a look around. Someone you know has won with the Oregon Lottery.
