HHS C-team girls lose in overtime

The Heppner C-team traveled to Echo Saturday, Jan. 17, to compete against the Condon Blue Devils and came away with a disappointing 34-28 loss.

The Mustangs were tied 6-6 after the first quarter. The Mustangs' strong defense held Condon to no score in the second quarter, while Heppner racked up five points, giving them the lead of 11-6 at the half.

The Blue Devils' full-court press and the Mustangs' turnovers in the third quarter brought the game to a tie at 18-18. Two minutes into the fourth quarter, Condon took their first lead of the game, but the Mustangs held on. With 54 seconds to go, Marissa McCabe was fouled. McCabe ached her first shot and coach Rollie Marshall called a time-out with the score Heppner, 24, Condon, 25. When the game resumed, McCabe sunk the second shot, tying the game at 25-25.

Condon started down the court, but McCabe stole the ball with 16 seconds left. The Mustangs flew down the court and Jenni Patton went for the score, but missed as time ran out.

Mindy Smith made the first field goal in overtime and was fouled. She completed the foul shot, giving Heppner the lead, 28-25, but Condon took control of the game starting with a three-point shot by Randi McCall and six buckets by her teammates to Heppner's three in overtime.

McCabe scored a game-high 14 points, grabbed 14 rebounds and had four steals. Smith put in five points, scooped eight boards, had three assists and a steal. Other key players for Heppner included Lindsey Ward with three points and eight rebounds; San Juanita Elguezabal with three points and six rebounds to go with her two steals and one assist, and Sara Eckman who scored three points with two steals and one assist.

The Mustangs met up with

Condon again in Heppner, Tuesday, Jan. 20.

"A child is the root of the heart."
To suffer the loss of a child is to know a loss unlike any other... It means letting go of a beautiful part of our life & hopes & dreams we cherish. Memories are like little stars in the dark night of sorrow, & Shad "is & always will be our shining star."
Your overwhelming support & sympathy for our family has given us the much-needed strength in helping us accept losing Shad. Only those of you that have gone through this tragedy may fully understand, but all of you will never realize that because of your cards, phone calls, flowers, masses offered, food, poems, counselors for the students, memorial contributions, ranch help & the abundance of love you have shown us, have helped us try to endure this unbearable time.
Our heartfelt thanks go to the Heppner Volunteer Fire Dept. Rescue Team & Pioneer Memorial Ambulance Crew for doing everything in their power for Shad; to Dr. Wenberg & Pioneer Memorial Hospital nurses & personnel that tried to care for our families' needs.
Special thanks to Father Condon for leading & guiding us through Shad's tragedy & service; the Heppner St. Patrick's Altar Society for the wonderful dinner, & Sweeney Mortuary for their compassion & professionalism.
Heppner & all surrounding communities came to our aid and there are no words to sufficiently express what each of you have done for us - we will forever be grateful. Shad loved you all & the love has been returned.
"What enriches our lives is not how long we have with a person, but the depth of love we are fortunate enough to share."
Sincerely,
Paul, Susan, Shaun & Annie Hisler & extended Hisler & Healy families

**COMPLETE
BRAKE SERVICE**

Of the many parts in your car, light truck or sport utility vehicle, none are more important than those which make up your braking system. At Les Schwab, we're proud of the brake service we provide our customers. That's why we do it right, and we do it complete. We feel a brake system is only as good as its weakest part. Here's what we do:

ALIGNMENT

Every car should at least have a thrust alignment. It relates all 4 wheels to a common center line to insure maximum tire life and a centered steering wheel.

Over 90% of all cars built today should have a 4 wheel alignment. Most front wheel drives and some rear wheel drives have rear wheel adjustments. We invite you to ask us about it.
