Where others saw a small town, we see the big picture.

Small towns have very special values. Like the importance of close friends. And putting service before profits. Being from a small town ourselves, we at Klamath First understand these values very well. In fact, we've helped people in our home town realize their dreams for more than 60 years. And now, while other institutions are treating small towns like small potatoes - drastically reducing and eliminating services - we've opened 33 offices in small towns across the state. So come get acquainted with Klamath First Federal. Together, we can make big things happen.
