

Candidates

from page 8

children, six grandchildren and 13 step-grandchildren.

Mollahan was born in Morrow County and graduated from Heppner High School. He attended Gonzaga University, WA, and Blue Mountain Community College and is several credits short of a degree in criminology at Blue Mountain Community College. Mollahan served in the U.S. Army from 1958-1960 as a payroll clerk, earning the rank of SP4. He was honorably discharged with a Good Conduct Medal.

Mollahan is retired, working as a part time farm worker. He is a member of St. Patrick's Church in Heppner and BPOE #358. He was city policeman of Heppner from 1964-1968 and was elected twice as Morrow County Sheriff, from 1969-1976.

"I have knowledge of the juvenile code, the procedure of the courthouse, the duties of the judge. Among my other duties as sheriff, other than those of law enforcement, were tax collecting and civil defense. I had budgeting and payroll duties. I am familiar with the role of the county commissioner."

Why would a voter select you over your opponent? I enter this candidacy with ability and background; a strong, sense of the democratic process; a belief that good government is based on

having a consensus on the issues; a willingness to listen and seek resolutions of issues affecting the citizens; that I take the future of Morrow County very seriously.

If elected, what is the biggest challenge facing you? The major challenge facing Morrow County will be the great effort that must be made towards maintaining its livability, lowering the crime rate, child abuse and maintaining our medical services. Effort should go towards providing family-wage jobs in the area.

What major project would you like to see accomplished. What is your first priority? My first priority and major project would be towards the diversification of county economy. I would put heavy emphasis on recreation and a safe, healthy environment. The need for an "assisted living" facility for the county would greatly benefit the senior citizens and this facility would provide more job opportunities.

Please outline a brief plan to help North Morrow County accommodate growth: The county should participate in planning for growth and expansion of services to North Morrow County. This would include maintaining and improvements to infrastructure.

How can you assist South

Morrow County in retaining and creating jobs? South Morrow County needs to engage in vigorous planning to meet the challenge of Kinzua reductions or closure. Cooperative retaining programs will need to be available from BMCC, EOSU and private industry. Invite diversification by attracting new business and industry to South Morrow County.

What is the major problem created by the plan to incinerate chemicals at the Army Depot. How would you address this problem? Department of Defense is in charge of this project and if problems do arise, the county will have full and complete federal and state participation. The county court should act in an over-sight role to protect safety and health of out residents.

Outline a brief plan to allocate Morrow County's tippage fees, or if you are satisfied with the present plan, explain that: The tippage fees should be managed as all county funds are managed. They should not be held as a slush fund of the county court. Citizens need to be consulted on the use of the funds before they are allocated or pledged as these fees concern all of Morrow County.

Briefly outline a plan to allocate county services, such as road construction and maintenance, among the communities: All road work should be allocated on a "real need" basis. The necessity for farm to market roads, recreational access, safe bus routes and economic development should play a role in all allocations.

Are you in favor of establishing a road between tone and Boardman. Why or why not? I am in favor of establishing a road between lone and Boardman as we need a more direct and shorter route to Boardman. This would benefit the transportation of farm commodities, faster access to the freeway and quicker response time for police officers to the Boardman area.

Do you agree with the current system of two commissioners and a judge elected at large. Why or why not. If not, what system would you propose? I agree with the current system because it reflects the one person, one vote, on a county wide basis, "Democracy in

action".

Do you think the present Morrow County juvenile court system should be retained or should jurisdiction be transferred over to circuit court. Why? What are your qualifications for serving as juvenile court judge? I believe that the jurisdiction of juvenile court should be retained as it is now handled. Juvenile court is able to handle local juvenile and family problems effectively. I feel fully qualified to address the problems of juvenile court from my past training and experience.

Club sponsors watercolor workshop

A watercolor workshop, featuring Oregon Watercolor Society artist Nancy Bourgeois from Spray will be held Friday and Saturday, Nov. 20 and 21 at the Morrow County fairgrounds.

Participants may bring any sort of subject matter they would like to paint.

Some painting materials and ideas for pictures will be available.

Another workshop to be given by Shari Cantrell is being planned for Dec. 4-5. Cantrell specializes in teaching florals and portraits.

Both events are sponsored by Morrow County Creative Arts and Crafts Club. Students need not be club members and beginners are welcome. Anyone interested in either class is invited to call Sharon Harrison, work 676-9164; home 989-8496, as soon as possible. Reservations are limited.

Two local teenagers with "outstanding artistic abilities", Audra Bunch and Tori Odinet, will be sponsored to a workshop by MCCACC said a club spokesperson.

Craft club members are reminded of the arts and craft sale and show to be held at All

Saints Episcopal Church Nov. 7. Members are asked to bring any arts and crafts items for sale, two dozen cookies and any white elephant items.

News deadline 5p.m. Monday

a year with an additional one-time only state start up costs of \$104,000.

State Ballot Measure 63: allows passage of greater-than majority voting requirements only by an equally large majority. A measure imposing a 2/3 majority voting requirement to change a law would require a 2/3 majority to pass.

This measure is estimated to have no effect on state or local government expenditures.

State Ballot Measure 64: prohibits many present timber harvest practices and imposes more restrictive regulations.

It prohibits chemical herbicides, and pesticides in the forest; limits the size of trees that can be harvested; imposes new harvest regulations including federal regulation by classifying forest land waters as navigable; requires state to submit new forest land water quality plan to federal Environmental Protection Agency and seek approval before permitting logging. It authorizes citizens' suits to enforce new harvest restrictions.

State revenues and expenditures are estimated to decrease \$25,000,000 per year. A 65 percent harvest reduction is estimated in eastern Oregon and a 60 percent reduction is estimated in western Oregon. Decreases apply to private, local and state lands.

Revenues to schools are estimated to decrease by \$33,200,000 annually. County and special district revenues are estimated to decrease by \$7,800,000 per year.

State Ballot Measure No. 65: amends the constitution and creates a process for petitioning the legislature to require its review of administrative rules.

No effect on state or local government expenditures or revenues is expected.

State Ballot Measure 66: amends the constitution to dedicate 15 percent of net lottery proceeds to parks, beaches, salmon, wildlife habitat and watershed protection.

The measure would take 15 percent of lottery funding away from job creation, economic development and public education.

Half of the fund would create and maintain state parks, ocean shores, public beach access areas, historic sites and recreation areas. The other half would go to a single agency to administer funds to protect native salmon, wildlife habitat, watersheds, using at least 65 percent for capital expenditures.

State Ballot Measure No. 67: allows the medical use of marijuana within specified limits and establishes a state controlled permit system.

It allows for medical use of marijuana to mitigate symptoms and effects of debilitating medical conditions which include cancer, glaucoma, AIDS, HIV, MS and others. It requires written proof by a physician. It exempts the permit holder or applicant from marijuana criminal statutes and authorizes criminal charge defense for medical use without permit. It limits the amounts of usable marijuana and the number of plants that can be possessed.

State expenditures are estimated at \$147,000, based on the assumption that 500 applicants will register with the Oregon Health Division each year. Some or all of the costs may be offset by fees.

U.S. Senator: Dean M. Braa, Socialist; Jim Brewster, Libertarian; Michael A. Campbell, Natural Law; John Lim, Republican; Karyn Moskowitz, Pacific; Ron Wyden, Democrat.

U.S. Representative in Congress, 2nd District: Lindsey Bradshaw, Libertarian; Kevin Campbell, Democrat; Greg Walden, Republican; Rohn "Grandpa" Webb, Socialist.

State Governor: Blair Bobier, Pacific; Richard P. Burke, Libertarian; John Kitzhaber, Democrat; Bill Sizemore, Republican; Trey

Smith, Socialist; Patti Steurer, Natural Law; Roger G. Weidner, Reform.

State Representative 57th District: Bob Jensen, Independent; Vern Kube, Republican.

State Representative 59th District: Lynn Lundquist, Republican, unopposed.

State Superintendent of Public Instruction: Stan Bunn, Margaret Carter, non-partisan.

State Judge of the Supreme Court, Position No. 7: William Riggs, Bob Tierman.

State Judge of the Supreme Court, Position No. 4: Susan M. Leeson, unopposed.

State Judge of the Court of Appeals, Position No. 4: Virginia L. Linder, unopposed.

State Judge of the Court of Appeals, Position No. 7: Robert Wollheim, unopposed.

State Judge of the Circuit Court, 6th District, Position No. 2: Ronald J. Pahl, unopposed.

Rec. Dist. advisory vote on ballot

Morrow County voters will be asked Tuesday if they wish to continue providing current community recreation programs and to continue levying current property taxes for the Morrow County Unified Recreation District. The rec. district currently provides approx. \$365,000 in funding to the Morrow County School District each year.

The vote is advisory only and not binding.

Recreation District Board Chairman Kyde Estes says the vote is a way for the recreation district to honor its promise to the voters of Morrow County.

"This advisory vote is our way of keeping our promise to the voters to look at this again in three years," Estes said. "And see if they still want to fund the district."

The original district levy was set up for three years only, however, a change in state law has now made it possible for the district to continue levying taxes in perpetuity.

"We feel we need to honor our commitment to the taxpayer," Estes said.

On what the district will do with the vote results Estes said: "Our (the board's) intention is to honor the wishes of the taxpayers. If there is an overwhelming no vote we do not intend to levy again in the near future."

School Superintendent Chuck Starr said the district has not made specific plans on where it will cut if it does not receive the funding from the district. But he did say the school district will have to somehow get along without \$365,000 in funding. He also added that funding is coming from the recreation district for the coming budget year, and any decision by the rec district would affect the following year's school budget.

Jerome to speak at All Saints

Doug Jerome of the Church of the Redeemer in Pendleton will be the speaker at All Saint's Episcopal Church Sunday, Nov. 1.

Jerome, who is junior warden at his church, suffered an illness a few years ago that left him without his eyesight. He will tell the story of how he learned to cope with blindness. He is still able to hunt deer and elk.

Jerome will be accompanied by his wife Phyllis and his guide dog, Brogan.

Oregon Student Scholar
Currently at Whitman College

"I support the Blue Mountain Community College bond measure because BMCC provides a service that benefits everyone in our community. Blue Mountain provides an excellent and affordable education for those transferring to universities, for those looking for specific job skills, for those seeking information on technology and for those pursuing other personal educational interests. BMCC must have the necessary resources if it is to continue equipping people with the skills required to excel in this changing environment. On November 3rd, vote YES for the Blue Mountain Community College Bond Measure."

As FACULTY at BMCC, we challenge our students to academic accomplishment while fostering a love for learning that will last a lifetime. We applaud the success of students, like Richard, as they experiment with new ideas, think critically and effectively solve problems.

THE BMCC FACULTY seek your support for Bond Measure 30-34. STUDENTS WILL BE THE REAL WINNERS!
Paid for by Friends of BMCC

Dear Friends and Neighbors,

Thank you for the encouragement and support you have provided to me as your state representative. Although we have accomplished many great things while I have been in office, there are very important challenges that lie ahead:

- Making state government smaller and making it work smarter for Central and Eastern Oregon
- Insuring a high-quality education for our schoolchildren
- Establishing a balance between protecting our natural resources and preventing people who depend on the environment from losing their jobs

I know we share the same fundamental ideas about the future, and I will make sure your voice is heard. You have my word on that.

Please vote on November 3rd.

Re-Elect Lynn Lundquist. The right man for the job ahead.

Authorized and Paid for by Lundquist for State Representative, District 59
P.O. Box 5, Powell Butte, OR 97753
