is doing another risk analysis as talk about alternative technologies resurfaces.

The court authorized Judge Tallman to sign the application to DEQ for a waste tire cleanup when Mabbott and the code enforcement officer have prepared it.

Public Health Director Laura McElligott discussed with the court her concern with HB 2633, which requires notice to parents of minors wanting an abortion but contains a provision that would allow the health division to authorize pregnancy terminations without notice to parents. Hanlon reported that the Association of Oregon Counties is working to build a middle ground between pro-choice and parental consent advocates. McElligott expressed concern that requirements of this bill would damage the reputation of health departments.

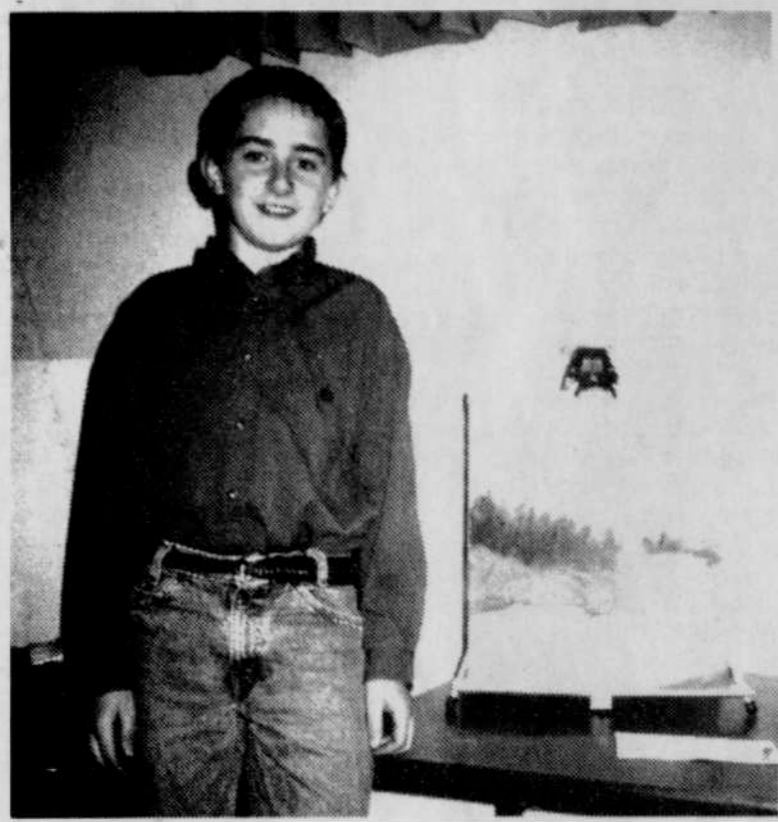

The court approved a correction to the bargain and sale deed with the city of Ione, decided to request from the Fair Board a recommendation of someone to appoint to its vacancy, and appointed Bill Sheirbon to the Commission on Children and Families. It also approved the extension of intergovernmental cooperative agreement with Umatilla County for juvenile detention and approved accepting the deed from ODOT in a road exchange agreement for the Morgan East Road and signing the quit claim deed. The court approved a consent to participate agreement.
