Hands On Science Classes scheduled

The spring session of Hands on Science is scheduled to begin Friday, March 31, at the Heppner Elementary School cafeteria on non-school Fridays.

The Hands on Science Program (HOS) is a recreational science program open to children in grades pre-kindergarten to six. This spring session will feature classes in solar energy.

"Bubbles To Rainbows" is the title of the class offered for pre-K aged students.

The participants will create solar prints, find out how a sundial works, discover rainbows in bubbles and sun bouncers,

make ultraviolet beads change color and more. This class will meet from 1-2 p.m.

Students in grades one to three are being offered the class, "Hot Stuff." These students will split light with prisms and rainbow glasses, learn how to tell time from shadows, use the sun to dehydrate food and heat water and find out if plants will respond phototropically through a maze. "Hot Stuff" will meet from 2-3 p.m.

"Solarific" is the class being offered to students grades three to six. Activities available in this class include finding out how fast the earth spins using the sun, creating solar art and making "solarific" toys like spectrosopes, periscopes, and constellation finders. "Solarific" will meet from 12-1 p.m.

The Hands on Science program is being made available through the Umatilla-Morrow ESD.

There is a \$45 registration fee. "This fee enables the students to come to class with nothing and leave with lots of stuff so they can repeat the experiments at home," says Hands on Science area coordinator, Sarah Carlson.

Scholarships are available. "We don't want cost to be a prohibitive factor to participation in these classes," says Carlson. There are eight classes in the session so the session will end on May 26.

Registration forms are available at Heppner and Lone elementary schools, the Heppner and Lone public libraries and post offices. Carlson advises to register early as the classes are limited to 10 participants.

For more information about the program or scholarship information, contact Carlson at 422-7245.
