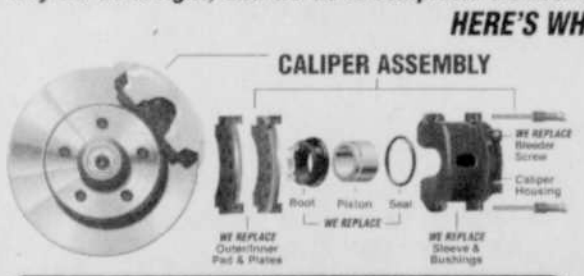
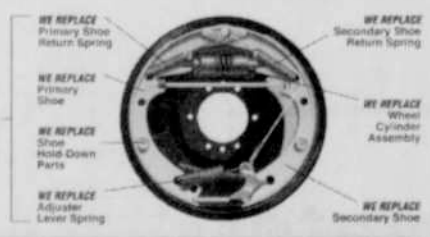
WE DO IT RIGHT, WE DO IT COMPLETE!

Of the many parts in your car, light truck or SUV, none are more important than those which make up your braking system. At Les Schwab, we're proud of the brake service we provide our customers. That's why we do it right, and we do it complete. We feel a brake system is only as good as its weakest part.

HERE'S WHAT WE DO:





FRONT DISC BRAKE SERVICE

1. REPLACE WITH REMANUFACTURED OR REBUILD FRONT CALIPERS
   WHY? We do more than replace brake pads. Factory re-manufactured calipers include new seals and hardware in addition to pads. This allows for better caliper operation, complete piston return and less brake drag.
2. NEW HIGH QUALITY DISC PADS
3. RESURFACE ROTORS
   WHY? Machining the rotors provides a proper finish for seating the new brake friction and preventing brake vibration and pulsation.
4. REPACK WHEEL BEARINGS (EXCEPT FWD)
5. NEW FRONT SEALS (EXCEPT FWD)
6. BLEED & ADJUST ENTIRE SYSTEM
   WHY? We bleed the system to remove air and flush to refresh the brake fluid. This helps reduce the chance of brake fade and prolongs the life of hydraulic components.

REAR DRUM BRAKE SERVICE

1. NEW HIGH QUALITY BRAKE SHOES
2. RESURFACE DRUMS
   WHY? Machining the drums provides a proper finish for seating the new brake friction and preventing brake vibration and pulsation.
3. ALL NEW HOLD-DOWN RETURN SPRINGS
   WHY? Heat affects the spring tension over time. We replace the drum brake hardware for proper brake shoe hold down and return. This allows the brake shoes to wear evenly and for reduced brake drag.
4. ALL NEW WHEEL CYLINDERS
5. ADJUST PARKING BRAKE
6. BLEED & ADJUST ENTIRE SYSTEM
   WHY? We bleed the system to remove air and flush to refresh the brake fluid. This helps reduce the chance of brake fade and prolongs the life of hydraulic components.
