- ✓ LOW COST
- ✓ RIB DESIGN

STARTING AT
84.38

P235/75R-15

FREE MOUNTING • AIR CHECKS • ROTATIONS
ROAD HAZARD • FLAT REPAIR

CALL FOR YOUR SIZE & PRICE.

BETTER GAS MILEAGE

WITH PROPERLY INFLATED TIRES

Recently Les Schwab teamed with the Rubber Manufacturers Association to check the tire air pressure on vehicles that came into some of our stores. Approximately 1,100 vehicles were inspected, and this is what we found:

- Only 5% of vehicles had four properly inflated tires.
- 58% of vehicles had at least one under inflated tire.
- 26% of vehicles had at least one tire under inflated by 8 psi.
- 34% of vehicles had at least one tire under inflated by 6 psi.
- 47% of vehicles had at least one tire under inflated by 4 psi.
- Tires may lose up to 1 psi per month.

Many vehicles equipped with tire pressure monitoring systems would not issue a warning even after a drop in tire pressure of 8 psi. These systems issue a low pressure warning only after tire pressure drops 25%.

Properly inflated tires can improve fuel efficiency by 3.3% and save \$.06 a gallon at the pump. Approximately 1.2 billion gallons of fuel are wasted each year by U.S. motorists driving on under inflated tires.
