

THERE
WHEN YOU NEED US

**A dedication to community.
A commitment to service.**

If you're like most people in the Northwest, you live, work, and play in or around our vast mountain ranges, open spaces and rivers. Should you need medical attention, whether due to a heart attack, injury, accident or other unforeseen event, these remote locations can delay your access to emergency medical care.

Through a unique combination of helicopter, fixed-wing and ground emergency transportation and the highest trained air medical professionals in the Northwest, Life Flight Network provides life-saving transport for seriously ill or injured patients from the scene of an emergency or from one hospital to another.

With our new helicopter base location in La Grande, Oregon, Life Flight Network is honored to expand our nationally-recognized emergency air medical transport service to a whole new area. We're proud to serve the people of northeast Oregon and southeast Washington – **and to have a home in your community.**

2009 Air Medical Program of the Year
