

EDUCATION:

Super-fast LTE technology will connect Oregon students to a world of interactive learning.

Expanding our LTE mobile broadband network across more of Oregon.

PUBLIC SAFETY:
LTE will provide a more advanced wireless network for Oregon first responders.

ECONOMY:
Expanding high-speed wireless Internet across Oregon will create jobs, fuel economic growth, and spur innovation.

HEALTHCARE:
LTE will connect Oregon families to doctors and specialists across the state and around the world.

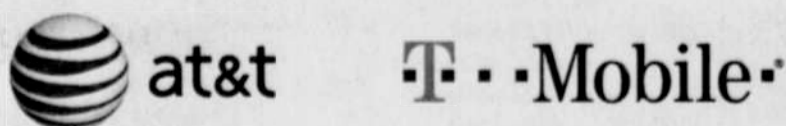

Mobile broadband is taking another major step forward.

The network technology is called LTE (Long Term Evolution), and it's more than just another update. It's a whole new way to get online — a super-fast wireless connection to the Internet.

The planned combination of AT&T and T-Mobile will allow us to expand our advanced network to cover an additional 30,000 square miles in Oregon — delivering a new choice for broadband Internet access.

Our customers will get a stronger network. Oregon will get cutting-edge wireless technology. And 500,000 more Oregon residents will get a new choice for mobile broadband and all the benefits it brings.

We can't wait to see what you do with it.
