Next Sunday, June 3, at 6 p.m., the shared ministry of Hope Lutheran Church and All Saints Episcopal Church will host a free video performance of the Gospel of Mark on the big screen at Hope, corner of Alfalfa and Cowins in Heppner.

In this video, the entire gospel is told from memory as a single story, just as the early Christians would have heard the stories of Jesus (since few could read). "Hearing it in this way, in a single session, makes the story Mark tells come alive," says Pastor Katy

Anderson. The performance will last about two hours. A light supper will be served midway through the video. Everyone is welcome. More information is available by calling the shared ministry office at 541-676-9970.

A pathway to jobs. An investment in rural counties.

the Morrow Pacific project

**Working for jobs and the environment.**

As the Morrow Pacific project continues to move forward through the approval process, we continue to hold to our commitment to doing business the Oregon way. That includes supporting the economy and the environment.

**Creating New Jobs**

A recent study by ECONorthwest, a highly regarded independent firm, concluded that the Morrow Pacific project will create more than 2,100 construction jobs and more than 1,000 permanent jobs - including workers directly employed by Morrow Pacific, jobs created at other companies and jobs in other sectors created by the infusion of new wages in the economy. These jobs will make an important difference to Oregon, especially in Morrow and Columbia counties.

**Taking Care of the Environment**

Safeguarding the environment is equally important. The Morrow Pacific project has been designed to meet all environmental standards - for example, by relying on covered barges to move coal downriver and by eliminating or minimizing coal dust at every stage.

Currently, the Army Corps of Engineers is coordinating an enhanced environmental assessment to ensure the project meets all air and water quality standards while protecting fish and wildlife habitat. Over the past several months, thousands of Oregonians submitted written comments to the Corps supporting the Morrow Pacific project for the fundamental reason that the project creates jobs while protecting the environment.

**Thank You for Your Support**

We thank all of those who have already expressed their support. We encourage you to learn more - and to continue to show your support for jobs and the environment at [www.morrowpacific.com](http://www.morrowpacific.com).

**Morrow Pacific Project Fact:**

The Morrow Pacific project represents a \$246 million investment in Oregon. The project will pay property taxes and port fees in Morrow County and has not asked for any kind of tax breaks.
