Wildfire damage housing relief available for Oregon wildfire victims

Salem, OR—House Republican Leader Mike McLane (R-Powell Butte) recently announced that relief for wildfire victims is now available and accessible through the Wildfire Damage Housing Relief Account.

Created through legislation sponsored by Rep. McLane and signed into law by Governor Kate Brown, the program serves as an additional resource

for Oregon families who lose their homes or housing in a wildfire.

“Oregon is facing an unprecedented wildfire season that has already claimed 36 homes and displaced dozens of families from their communities. These next few months will be challenging as we work to recover from these devastating fires across our state,” said McLane.

The Wildfire Damage

Housing Relief Account was created under House Bill 3148-A, and will be administered by the Housing and Community Services Department to assist households of lower income that suffer a loss of housing due to a wildfire. The department will provide assistance from the account in the form of grants in the amount of \$5,000 each. Eligibility guidelines and applications can be found

here on the Oregon Housing and Community Services website. Additionally, Oregonians who have lost their homes due to a wildfire can contact the Housing and Community Services Department at 503-986-2062 or wildfire.relief@oregon.gov.

Senate President Peter Courtney and Representative Gail Whitsett joined Rep. McLane as chief sponsors of HB 3148-A.
