In Oregon 2 people per day die by suicide.... one in five victims of suicide is a veteran. Oregon Department of Veterans Affairs encourages all Counties to help highlight September 22nd in recognition of the 22 veteran suicides that occur across the nation each day. Veterans are at risk for suicide for all the reasons a non-veteran might be, such as coping with the effects of aging, legal problems, exposure to bullying behavior, relationship problems or financial stress.

Additionally, veterans may be dealing with lingering effects from their military service, difficulties with readjusting to family roles and civilian life after discharge, and underlying mental illness.

During music breaks we will have local providers share information about their services and how to get help.
