Seven lots available priced very reasonably from \$8,500 and \$15,000

Umatilla National Forest begins phased reopening of developed campgrounds

The Umatilla National Forest reopened 17 developed campgrounds across the Forest on June 9, where crews have completed annual start-up preparations. While the Forest is working hard to actively reopen developed recreation sites to the public, some campgrounds and all cabin rentals remain closed.

Forest staff will reopen additional campgrounds as crews complete site preparations, which includes access to the sites, removing hazard trees and mitigating other safety issues. Deci-

sions for reopening additional sites will also depend on the availability of necessary cleaning supplies and personal-protective equipment required to complete basic start-up tasks. Some campgrounds may remain closed longer due to snow levels or flood damage.

The following campgrounds opened on June 9:

-Pomeroy Ranger District: Alder Thicket, Big Springs, Boundary, Pataha, Teal Spring

-Walla Walla Ranger District: Woodland, Wood-

-North Fork John Day Ranger District: Drift Fence, Driftwood, Frazier, Gold Dredge, Winom, Toll-bridge

-Heppner Ranger District: Bull Prairie Lake (without water), Coalmine, Fairview, Penland Lake

All other campgrounds on the Forest remain closed until further notice. As sites reopen services may not be available, including restrooms or trash collection. The Forest cannot guarantee restrooms that are open will be routinely serviced and those utilizing these

facilities are doing so at their own discretion. Forest visitors should come prepared with personal hygiene items, including hand sanitizer and toilet paper. Additionally, be prepared to pack out any items brought on site.

Most campgrounds charge a fee ranging from \$8 to \$24 per night. Other fees may be imposed for additional vehicles parked at a single campsite.

In addition to campgrounds, all Umatilla National Forest trailheads,

Sno-Parks, boat ramps, day-use sites roads, trails, and general forest lands are also still open for public use.

The public is reminded that several roads and trails are closed in areas with significant flood damage. Detailed closure maps and updates on flood repair activities are available on the Forest website and at any Forest office. Closure signs will also be posted on the ground.

Some forest roads and campgrounds are still not

accessible due to mud, snow or snow drifts. In addition, traveling on thawing, saturated, and muddy roads can result in resource damage and serious safety concerns, especially if visitors are unprepared. Forest conditions are dynamic this time of year and likely to change throughout the day and week. The public is encouraged to monitor the Umatilla National Forest Facebook page and website for updates on forest conditions or flood repair activities.
