## Dollar store would be benefit

To the editor:  
I am taking this time to voice my opinion of the store that is wanting to move into Heppner. I feel a new and different type of store could offer different types of things for the town without damaging the other

stores.  
Opening a new store could give our town a fresher look and possibly expand our needs. I honestly feel the new store can help the town receive items that the other stores do not have.

## We have entered dystopian stage

To the editor:  
We have entered the dystopian stage of the Obama/Biden globalist government where anyone that questions or challenges this new world order will be censored, ridiculed, persecuted or prosecuted. For example, any person that dares to say the presidential election was stolen or fraudulent will become a target despite the fact that:

1) Three quarters of the registered voters believe the 2020 presidential election was fraudulent. (Economist/YouGov Poll Nov. 19, 20). The truth is that any American that does even a cursory investigation will discover massive evidence of voter fraud, dead people voting, double voting, illegal alien votes, falsified votes by the tens of thousands and government manipulation of votes. Unfortunately, that is not the major threat to our republic and freedom.

2) Our election voting systems have been compromised. Dominion and every other voting machine are all connected to the internet, where cyber malware easily changes the algorithms, determining the rulers of governments throughout the once free world. (NBC news, Jan. 10, 21). Dominion executives lie under oath, knowing full well their own manuals reveal their deceit and treachery. They lie under oath because they know America's current justice system will protect them. Unless this fraudulent voting system is corrected, patriotic Americans that love our republic and way of life will never win another election. The democrats that control both houses of congress have reintroduced H.R.I. which will include "nationwide online voter registration, (with minimal verification requirements), same day registration; automatic voter registration...and legalization of ballot harvesting." (Epoch Times, Feb. 3, 21). Unfortunately, there are even greater threats to our liberty.

3) Our American Congress and the vast majority of our news and media outlets waste our precious blessings of governers with a senseless and futile effort to impeach a president fraudulently voted out of office. At the same time our enemies, with the support of Obama/Biden (China, Russia and Iran).

insidiously and ominously (economically, politically and militarily) gather strength and confidence to destroy our nation. There is undeniable evidence, that our courts will not allow to be presented, that our presidential election was hacked and stolen from the American people by foreign nations that want to annihilate America. President Trump won by such a large margin that even our government and national voting fraud could not elect Joe Biden. The steal required foreign government cyber interference of the election, of which 66 percent came from China. (Mike Lindell, "Absolute Proof," Feb. 5, One America News). The second greatest source of cyber-attack came from Iran. In 27 states in America our votes are counted and stored in overseas servers easily changed and manipulated. (Lindell, op. cit). Iran, China and multiple globalist nations have conspired with the Biden/Harris/Pelosi/Schumer/Obama government to remove the Trump administration, consistent with their mutual globalist, anti-God agendas. This is nothing short of an act of war against America and the American people. And worst of all, that is not the greatest threat to our republic and way of life.

4) Abraham Lincoln prophetically warned, "At what point then is the approach of danger to be expected? I answer, if it ever reach us, it must spring up amongst. It cannot come from abroad. If destruction be our lot, we must ourselves be its author and finisher. As a nation of freemen, we must live through all time, or die by suicide." (Lyceum Address, 1838). Our American Republic, our liberty birthright, our heritage of freedom lies in the balance, not only because of traitors in our midst or even foreign interference, but primarily because of Americans in positions of elected power and authority have been bribed or blackmailed or are just plain cowards. These traitors are unwilling to stand up against the deceit and treachery of deadly foes within and without our nation. This is why the Clintons get away with bloody murder. This is why Barack Obama can make deals with our enemies, Russia and Iran, and none dare call it conspiracy. This
