"The Linotype Way is the Way that Wins."

Entered as second-class matter March 3, 1911, at the post office at Gresham, Oregon, under the act of March 3, 1879.

APPRECIATION.

Do not criticize or condemn, but try to find the real truth that is back of every belief. Look through the incompleteness of man's conception of truth and live for the truth itself. Live appreciation, radiate it, let it shine through you, and always declare the truth your heart has known. Encourage people, tell them of all the good you can see in them. You will thus enable them to see themselves as they are and will awaken hope and power to do. Be sure you always appreciate all others do for you. There is no power more strong, more effective for good, more certain in its lasting benefit to mankind than this one great attribute, recognition and appreciation.—Selected.

THE GET-TOGETHER SPIRIT.

A Development League or Commercial club in a city, town or locality is a good thing. It forms a central organization which can carry on publicity work. It provides a means of promoting many measures for town betterment. It helps to unify the business interests for the good of each and all.

The town without a live Commercial club is a back number and will be shunned by the business men and investor looking for a location. A town whose business men and citizens are not united enough to pull together in a Commercial club for all the worthy objects of such an organization is one to be avoided. The get-together spirit is the spirit that wins in the west.

The smaller towns and cities throughout the state are forming their clubs. They will become important cities in the future and the club rightly conducted will help to make them so. These clubs are going further and forming themselves into leagues. Central Oregon cities are forming the Central Oregon Development League. Central Oregon is coming to the front and is going to advertise her opportunities and resources and will win citizens to that great undeveloped section.

A sane Fourth of July is promised for Portland. It is now the intention to make a quiet one, without the usual noisy features that are usually so prominent in the observance of Independence Day. People of the city for the most part plan to spend the Fourth in the country and enjoy picnics and outings in the fields and woods within reach of Portland.

THE PAROLE SYSTEM

Superintendent James and Chaplain Boner of the state penitentiary have started active work toward the organization of branches of the Prisoners' Society in every town in Oregon. The object is to find congenial and permanent work for paroled prisoners. This will aid Governor West to carry out his plan of preventing paroled prisoners from being congregated in any large city. Since the inauguration of this policy many prisoners with short time to serve have been placed in various institutions and on farms, on parole to become residents of these institutions and receive wages should they prove trustworthy they may be given their freedom at the end of their minimum sentence. They will be given congenial and healthy employment and consequently will have small desire to attempt an escape which would place them in much less agreeable situation should they be caught. This method of dealing with the less vicious offenders seems commendable and no doubt many a man will enter upon a useful life.

ESTACADA PLANS CAMPAIGN

The last number of the Estacada Progress publishes a call to poultry raisers to meet at the city hall on May 15 at 2 p. m., for the purpose of perfecting an organization through which to dispose of their poultry and eggs. Why not have something of the kind at Gresham.

This same number contains an article saying the Estacada Commercial club is planning to raise one thousand dollars for the publication and distribution of booklet describing the advantages of that section. A great booster campaign is being inaugurated which will mean much to a section with so many advantages of location, soil and climate.

The club certainly means business and is going after money in the right way to get it.

A SUGGESTION.

Portland needs better street signs. Especially in the business districts is the absence of suitable signs at street intersections most noticeable and bewildering to a stranger. We have walked block after block without being able to locate the street name. The names may be there but they are irregular placed, sometimes on the sidewalk, sometimes on telephone poles. Often it is necessary to step out into the middle of the street to read the sign. On behalf of the thousands of strangers and out-of-town people who visit the city we submit that the streets should be better marked so that anyone can tell what street he is on. If signs were placed uniformly it would help. They should be so placed that it will not be necessary to cross the street to read the sign.

Portland is planning a clean-up day for the city before the Rose Festival. The annual Rose event will bring crowds of visitors to the city and the surrounding country. Gresham is so near Portland, has so many good roads between it and the city, has so many country attractions of its own, that we may take the approach of this beautiful festival as an incentive to make our suburb as attractive as possible. Every one should be interested in improving the home grounds, and help in every way to make our city attractive.

It will be of interest to our Gresham readers to know that Albany has secured a \$12,500 Carnegie library building. The city had asked for a \$20,000 structure and had levied a tax to raise a sufficient sum for maintenance to secure a structure of that value, but Carnegie refused to donate so large a sum for any city showing less than 5000 population. Albany thus loses the \$20,000 structure because it did not observe the custom followed by most Oregon cities and extend its limits before the 1910 census was taken.

The large dam at the river mill power site near Estacada is nearing completion. This dam when completed will give a fall of 83 feet and furnish 30,000 horse power. This energy will be transmitted to Portland by a power line constructed for that purpose. The building of this dam has meant much to Estacada as the force consists of about 700 men with a payroll of \$53,000. When this dam is completed another will be built at the upper dam site on the Clackamas river.

WORK WITH THE HANDS.

Work with the hands! Let others toil
With magic pen and mighty brain,
But you and I let's till the soil
And plant bright roses on the plain.
Let genius dwell on peak in cloud,
But in the sunlit lower lands
Tasks wait for us that call aloud:
Work with the hands!

Let's rise at dawn; then morn is young;
Let's do the thing that we should do.
Out of each task is triumph wrung.
Out of pain is the soul made new.
Let's use our common tools with pride;
Let's join the strong, heroic bands
That answer to the summons wide—
Work with the hands!

Sweet peace shall light our days
with cheer,
We shall have conquest of our fear
And gladness crown us like a sun.
From sorrow and from travail won.

As Christ of Nazareth toiled with art
Obeying all the Lord's commands,
So shall we give Him with rapt heart
Work with the hands!!

The fruit crop report from Ashland districts show that there will be only half a crop of the later varieties of peaches with a 60 per cent cherry crop. Apples and pears are reported full crop, while strawberries are slightly damaged.

The Oregonian's tea spoons, made by Wm. A. Rogers of the firm of Rogers Bros., are very neat in design and are desired by everyone. See the special offers on another page.

THE LINE IS BUSY NOW.

The lass who minds the telephone
Is busy as can be;
She has a most convincing tone,
And though you cannot see
Her face, you fancy there's a frown
Upon her classic brow
When she remarks and turns you down
"The line is busy now."

Although the rich and wise and great
In power may be sure,
She is the one who holds your fate
Within a grasp secure.
In silence you are left alone,
You wonder why and how,
When she exclaims in placid tone,
"The line is busy now!"
