The motorist emerged from be-  
 neath the car and struggled for  
 breath. His helping friend, holding  
 the oil can, beamed upon him.  
 "I've just given the cylinder a  
 thorough oiling. Dick, old man,"  
 said the helpful friend.  
 "Cylinder," said the motorist,  
 heatedly, "that wasn't the cylinder;  
 it was my ear!"—Spectator.

 and make your selection.

**The Gresham Real Estate Co.**  
 Office on Main Street, Just north of Drug Store GRESHAM, OREGON.

**POWELL VALLEY**  
 Charlie Anderson left last Friday  
 for Alaska where he will spend the  
 summer.  
 The many friends of Edwin An-  
 derson are glad to see him around  
 again.  
 Miss Esther Stafanson visited re-  
 latives and friends in Portland on  
 Sunday.  
 Mr. Rydberg will teach one month  
 of Swedish school at Powell Valley  
 beginning June 5. All children are  
 invited to attend.

**BULL RUN.**  
 About 1,000 men are now at  
 work at this place on the various  
 projects under way here. These in-  
 clude the excavating for the large  
 reservoir, which is said to contain  
 about 186 acres, the building of the  
 flume and the construction of the  
 power house and tunnels.

Fuller & Company, sub-contract-  
 ors, are building the dyke. It is  
 about 30 feet wide at the bottom  
 and ten to fifteen feet high. At  
 one point a fill of forty-five feet has  
 been made.

The flume is completed for about  
 three miles up the river. It is  
 about ten feet wide and eight feet  
 deep. A large force of men is  
 working on this.

Another tunnel is being drilled  
 from the reservoir to the power  
 house below. There are two al-  
 ready completed. In these the  
 great pipes now scattered along the  
 company's line at various points will  
 be placed. A fall will be secured  
 of 285 feet. The track having been  
 laid to this point, pipes are being  
 hauled here and the placing of them  
 in position will begin Tuesday.

Business is quite brisk here. Har-  
 ry Wood of Gresham has opened a  
 barber shop which seems to be well  
 patronized. He went down on the  
 stage and spent Sunday and Monday  
 at home.

A. Lelana runs a daily stage be-  
 tween here and Gresham which is  
 usually well loaded each way.

**Way to Oil Floor.**  
 An oiled floor is a time saver and  
 any one can apply the oil, says the  
 Denver Times. If the floor is new  
 have the edges of the boards  
 smoothed down evenly and fill the  
 spaces with some kind of a filler.  
 Sawdust and glue is good. One  
 pound of glue to two gallons of  
 water. Thoroughly dissolve the  
 glue, stir in sufficient fine sawdust  
 to make a paste. Fill this while  
 warm into the cracks, pressing solid  
 with a putty knife. Smooth it down  
 level with floor and let dry. One  
 gallon of boiled linseed oil will be  
 sufficient for a 14x14 room. The  
 oil should be heated by setting the  
 vessel containing it in a larger ves-  
 sel of boiling water. Apply the oil  
 quite hot to the boards, going over  
 them evenly with a paint brush, and  
 let dry. When the first coat is  
 dry apply a second. When dry go  
 over the floor, a small space at a  
 time, rubbing it hard with a soft  
 cloth. This will give it a gloss.

A good sweeping compound for  
 floors can be made from sawdust  
 and sand sprinkled with carbollic  
 acid, water and paraffine oil.

The Oregonians tea spoons, made  
 by Wm. A. Rogers of the firm of  
 Rogers Bros., are very neat in de-  
 sign and are desired by everyone.

**List of Letters.**  
 The following list of letters re-  
 main uncalled for in the Gresham  
 postoffice for the week ending June  
 3rd, 1911:  
 Gentlemen—W. J. Howard, Roy  
 Fielding, John D. Rudd, John G.  
 Davis, Frank Page.  
 Ladies — Miss Alma Carpenter,  
 Mrs. G. W. M. Davis.  
 Cards — Hamond Pakon, Denzell  
 Breenridge, J. R. Brand, Roy  
 Fielding, (2) John D. Rudd.  
 Cards—Lulu Kennedy.  
 These letters will be sent to the  
 dead letter office on June 17th,  
 1911, if not delivered before. In  
 calling for the above, please say  
 advertised, giving date of list.  
 L. McColl, P. M.

 Portland get commission govern-  
 ment?

The Outlook will visit a relative  
 or friend for you 104 times during  
 the year, brim full of news. Isn't  
 that worth something to you?

**CLACKAMAS COUNTY NEWS.**

The saloon ordinance which pro-  
 vides that the saloons shall have  
 glass fronts became effective Satur-  
 day. Most of the saloonkeepers  
 had glass fronts put in several days  
 ago, but workmen were busy on sev-  
 eral of them Saturday. The law  
 provides that the glass shall begin  
 four and one-half feet above the  
 floor and shall extend upward four  
 feet. The new ordinance also ab-  
 olishes card playing and all games  
 of chance in saloons. It prohibits  
 the free lunch and provides a  
 heavy penalty for serving minors.  
 A similar ordinance regulating pool-  
 rooms has been passed.

**Trouble Ends in Blows and a Fine.**

Last Friday afternoon the em-  
 ployment agency of Portland  
 brought a bunch of men out to work  
 on the pipe line. One of their num-  
 ber became dissatisfied after he  
 found out where he was to work  
 claiming they were to be taken not  
 less than 100 miles from Portland.  
 He thereupon demanded his money  
 back which was refused by the  
 agency. Upon his insisting he was  
 seized and cuffed and choked,  
 whereupon he suddenly decided to  
 assume the offensive and proceeded  
 to pommel the face of his persecu-  
 tor. Both parties were arrested  
 and fined, the manager of the em-  
 ployment agency \$10 and the other  
 man \$5.00. The fine of the latter  
 was suspended and the agency man  
 left town with a sore nose and lots  
 of experience.

A good sweeping compound for  
 floors can be made from sawdust  
 and sand sprinkled with carbollic  
 acid, water and paraffine oil.

The Oregonians tea spoons, made  
 by Wm. A. Rogers of the firm of  
 Rogers Bros., are very neat in de-  
 sign and are desired by everyone.

**Points on Dairying.**

Don't wait until you have the  
 machine running at full speed before  
 turning on the oil supply. One had  
 better waste a few drops of oil  
 than run the risk of damaging some  
 of the parts that must withstand so  
 much friction and strain.

Don't allow the machine to work  
 loose or out of level, as either will  
 cause it to be difficult of operation,  
 damage the working parts and leave  
 a greater per cent of the cream in  
 the milk. Make sure that it is  
 firmly secured at the base and test  
 its levelness frequently with an ac-  
 curate level.

Don't fail to keep the cream sepa-  
 rator scrupulously clean at all  
 times. The importance of this is  
 quite apparent to all, when we con-  
 sider the efficiency with which each  
 piece and part must operate in order  
 to make a thorough separation of  
 cream from the milk. We must also  
 bear in mind that the clean sepa-  
 rator runs much easier than the  
 dirty one, and will last longer.  
 Of even greater importance are san-  
 itary reasons for keeping the sepa-  
 rator clean. The separator that is  
 neglected as to washing and the air-  
 ing out of all tinware is sure to be-  
 come filthy and germifestered, which  
 cause both the cream and the milk  
 to be less desirable as an element  
 entering into the human body for  
 strength and sustenance, to say  
 these products after separation.

**PROGRAM OF SCHOOL  
 BOARDS CONVENTION**

- Light**
