A rumor was floating around that a representative of the American Express company would be in Gresham over the Mt. Hood railway at 10:30 a. m. About a dozen business men waited at the new depot site in the rain for an hour but no train showed up. We trust that if the agent came he did not think that we were all so dead set on the Parcel Post system that we were going to pass the express company up entirely.

President Meyers of the Commercial club is in receipt of a letter

from the Mt. Hood railway officials announcing an excursion of the Portland ad. club from Montavilla at 10 a. m. Sunday. The letter asks for a delegation from the Commercial club to join them.

Reception at Mrs. Lennartz.
A pleasant reception was given last Saturday evening at the home of Mr. and Mrs. Martin Lennartz at Pleasant Home to Rev. and Mrs. A. B. Calder and Miss Stevens, of Milwaukee who is visiting her sister Mrs. Lennartz. There were about 100 guests present.

Mr. and Mrs. Calder were the recipients of a beautiful silk coverlet from the Ladies' Aid society in giving which Mrs. Lennartz made an appropriate presentation speech. Rev. Mr. Calder made suitable reply. Miss Stevens received a handsome volume of poems, the gift of the Ladies' Aid society. Other useful presents were received by Mr. and Mrs. Calder. Lunch was served and a delightful evening was spent.

The services at the Methodist church last Sunday were well attended and the sermons by Prof. E. Sherwood, of Kimball school of Theology, Salem, were greatly enjoyed. Professor Sherwood is a very clear and interesting speaker and his sermons called forth many expressions of satisfaction.

A. F. Johnson placed on display at the Outlook office last Friday four boxes of Magoons. There were 11 in one box and it was heaping full. The others averaged about 20 to the box. He has an acre in berries. Thursday he picked 35 crates. The berries were so abundant scarcely an impression was made on the patch. He will have many more pickings before the berries are gone.

O. A. Eastman of Plattville, Wis., has been visiting O. Thomas and family and other old friends in this locality. He is an ex-lumberman and banker and comes to this part of the country with the expectation of getting in on the ground floor in some of the newer localities of the West. He left last night for a return trip through California.

Parsons, who has been suffering for about three weeks from a trouble supposed to be caused by getting his face and head drenched with spraying mixture while spraying fruit trees, causing considerable swelling and irritation, has so far recovered that he is able to get out and attend to business again.

Mrs. Joseph Exley of 915 E. Yam hill, Portland, is the mother of a baby girl, born Monday. Mrs. Exley was Miss Pearl Metzger.

F. G. Cutlip, who is in the creamery business at Ambay, Clark county, Washington, was a guest of R. R. Carlson over Sunday. Mr. Cutlip states that the Northwestern Electric company is planning to put in a big power plant near Ambay and indications are that a railroad will be built to that point from Portland. The Mt. Hood people seem to be taking an interest in the project.

On Saturday a big box of books was received and unpacked at the public library. Miss Culy reports that twenty-one readers have taken advantage of the offer for vacation lists and their books arrived in the bunch Saturday. More lists will be made up and sent out on request. Mrs. E. G. Kardell was called Sunday night to Pasadena, Calif., to the bedside of her brother-in-law, Thos Carr, who is very ill.

The pipe line contractors have finished laying and riveting the pipe for Portland's Bull Run system except about two and one-half miles near the head works at Bull Run. The engine and compressor were moved from the Zenith addition in east Gresham Saturday and most of the camps have moved from this vicinity. It is not likely that the ditches in Gresham will be filled until some time next month as the line will have to be tested first.

Mrs. M. A. B. Page arrived last Friday from Montana and will make her home with her grandson, Rev. F. M. Burtch.

Rallying in the seventh frame, the speedy Gresham Giants defeated Rupert's Costerines in the first game of a three-game series Sunday at Gresham, 9 to 6. The Giants put Pitcher Scott to rout in that frame, when Kelt, first man up, slammed a three-bagger into deep center over the hill. Goddard, who relieved him, added to the furor by heaving past the catcher and allowing the tying run. Two other tallies were crammed across in the seventh on hits by the Parrott brothers, cinching the game, although the Giants added two more in the eighth on a hit by Robinson and Lodell's error.

K. A. Pierce of Cascade Locks was in Gresham yesterday looking for a location preparatory to starting a photographic gallery. He has decided that Gresham is a good central point and will locate here.

JUST A GOOD START

The first number of Volume 1 of the Gresham Outlook appeared on the third day of March, 1911. In that issue the editor, Mr. H. L. St. Clair, announced the reason for starting the paper and what he intended to make it. The question naturally arises at this time. Has he made good? and is The Outlook of any value to Gresham, or the varied interests represented in the territory "From Portland to the Mountains?" These questions are best answered outside and entirely independent of this office, nevertheless it is incumbent on every business man to "blow his own horn" a little and the establishment of the Gresham Outlook being to a great extent a business proposition we therefore conclude that we have a right to blow the Outlook horn a little. We wish to say this much that wherever we go we find people enthusiastic over the Outlook. Everybody seems to be waking up to the call to "Push" and while all may not push the same way yet the watchword "Push" has taken hold of the whole community and it is push somewhere all the time.

The Mt. Hood railway company is pushing, the Fair association is pushing, the merchants of Gresham are pushing, the country merchants and business men in surrounding towns are pushing, the church people are pushing and the milk producers and farmers are pushing.

We venture to say that more pushing has been done in this end of the county in the last three months than in any five years of its previous history, and last, but not least, the newspaper men are pushing and with every push things move ahead a little.

Now the Outlook was pushed to start with, but since it got started it has been one of the prime pushers and the forces from behind have kept coming on and pushing it ahead so fast that it has sometimes been almost in danger, but thanks to its friends and the pushers around it, it is still firm on its feet. Nothing now short of an eruption of Mt. Hood or an earthquake could overturn it. It has spoken to the people and they have heard its voice. Like the voice of the thunder rolling through the valleys and up the mountain.

The tide is on and we are now ready to place the Outlook in the hands of every family "From Portland to the mountains." We would could but this would not be best for either side. We therefore place the matter fairly and squarely before our readers and ask you to answer the questions we started out with in this article.

Has the Outlook made good? Is it of any value to this territory? If so, is it not worth coming twice a week as it does, at least one dollar and fifty cents to you each year? There will be another Outlook this week. Why not get the news while it is news? See our combination offers.
