## How a LAUREL Range Cuts Down Fuel Bills

Every make of stove is claimed to be a fuel saver. Of course we claim the same for our LAUREL Ranges.

But before you buy your range you want to be sure that the one you buy will do all the things claimed for it.

We know there is not a range today that is quite so good as a LAUREL. Every claim made for it can be proven with actual use.

And we do not ask you to take our word for it, but to come and see for yourself. For this purpose a LAUREL Twin-Flue Range will be

Demonstrated at our Store  
Monday, Sept. 4 to Saturday, Sept. 9, 1911

We will show you, through a specially constructed transparent top, why and how the LAUREL Twin-Flue Range will save one-third of your fuel; how you can cook twice as many things at one time; how the fire is controlled by the fire damper system and why it heats its oven as no other oven was ever heated before.

A paper smoke-pipe will be used to prove to you that the heat usually wasted up the chimney by other kinds of ranges is all used in a LAUREL.

Many other things will be shown and proven that it will be to your own interest to buy a LAUREL.

## We Will Give You

with every Laurel stove bought during this exhibition a 5 piece set of aluminum cooking utensils.

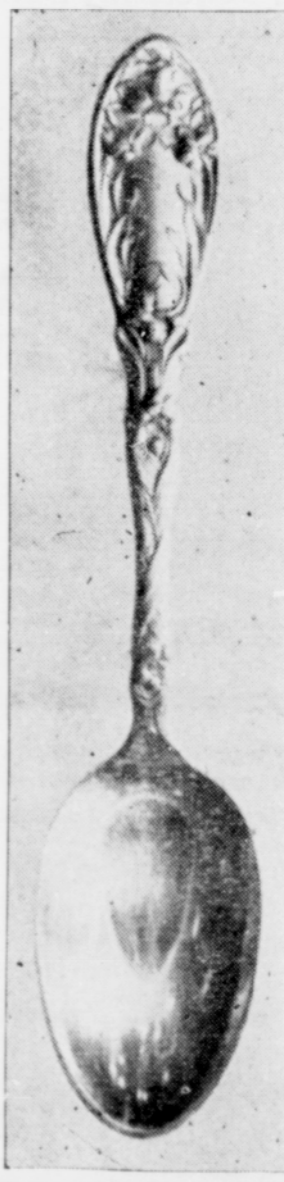

The Aluminum Ware is the famous "Wear Ever" brand and each set contains one 6qt. preserving kettle; one 6qt. Berlin kettle; (cover interchangeable with sauce pan); one 4qt. Berlin sauce pan and one 2qt. deep pudding pan.

Ask About the Stove to be Given Away

And come in and partake of the delicious hot biscuits and coffee, which we will serve free each day.

Remember the dates are September 4 to 9, 1911
