REV. PITTS ANSWERS MORMON ELDERS

The Gresham Outlook made some charges in the issue of September 1st against J. W. Schofield and J. W. Ballard to the effect that they were annoying women in their homes and advocating polygamy. These men have taken occasion to deny the same through the columns of the Outlook in its next issue while they in the very same week came to my house and in the presence of my wife openly advocated polygamy and denied the doctrine of the atonement as taught in the Bible except it should be based on "more solid teachings," we presume, those of Joseph Smith, the founder of the Mormon church.

They may deny the actual practice of polygamy, but they are still advocating it, or at least did so in my house. The undersigned was obliged to forcibly eject his caller from the house to get rid of his obnoxious arguments.

S. F. PITTS.

This issue of the Outlook contains many ads. which are worth reading. Don't overlook them.

When given as soon as the croupy cough appears Chamberlain's Cough Remedy will ward off an attack of croup and prevent all danger and cause of anxiety. Thousands of mothers use it successfully. Sold by Gresham Drug Company and all Dealers.

Are You Thinking of buying a New Range?

You have made up your mind that trying to manage with the old stove is a waste of time and money.

It can no longer be depended upon for baking. One time the results are O. K.—the next a waste of effort, materials and fuel.

Making up your mind as to the range to buy is not easy.

Don't select a range for its outside appearance alone. Beauty is only skin-deep—in some ranges as deep as the blackening on them. So get beneath the blackening in selecting your range.

The inside construction of LAUREL Ranges will interest you—and no other ranges present a handsomer outside appearance.

The inside or twin-flue construction of a Laurel Range is the root of its unequalled cooking and baking qualities and fuel saving features.

These points will all be made clear to you by a demonstrator direct from the factory at our

Laurel Stove Exhibit NOW BEING HELD AT OUR STORE

We cordially invite you to be present and see for yourself how a LAUREL Range will heat six griddles without heating the oven, the oven without heating the reservoir, or the reservoir without heating the oven.

In appreciation of your visit we'll serve crispy hot biscuit and delicious hot coffee each day.

You'll enjoy the dainty little luncheon.

You'll be convinced that a LAUREL Range makes good every claim made for it.

And remember to ask about the Stove to be given away.

With every LAUREL Range purchased during this exhibit, we will give a five-piece set of "Wear-Ever" aluminum cooking utensils. Don't decide on your range, at least, not until after you have read the valuable little book entitled, "Before You Buy Your Range." Come in and get one, or a postal to The Art Stove Company, Detroit, will bring you one by mail. And don't forget the dates of our exhibit.
