Arrangements have been made by the people here to charter a special car Sunday evening to go to Portland to hear Gypsy Smith speak. It will be necessary to sell thirty return trip tickets so it is hoped that many will take advantage of this opportunity. Passengers will go down on the regular 5 o'clock train Sunday evening, which will enable them to get there in time, and return on the special at the close of the services. It may be that Scenic and Cottrell people will secure enough passengers to enable the car to go on up. Those further along the line will be accommodated also.

Mr. Naushahn was a Portland visitor Thursday.

Work is being resumed on the sidewalk to the depot and it is hoped it will be completed in a short time.

Road Supervisor James Hillyard has received word from the court house that crushed rock will be furnished for about two miles of road here. The crushed rock will be shipped from Kelly Butte on the O. W. P. to Ruby and transferred to the Mt. Hood railway. Mr. Hillyard was highly commended for the great saving he made on the gravelled road north and south of here and the court is now willing to make more improvements.

Lester Clinefelter returned to Oswego Thursday morning after spending a week with his sister, Mrs. Rosalie Shipley. Mr. Shipley's father expects to come from Oswego next week to make his home with her for the winter.

Mr. Nesley and Herbert Gilkey of Medford have completed their work with the United States geographical surveyors that have been mapping here for two weeks. A. E. Newlin, the head man will go to Washington, D. C., soon where he will be in charge of government work and D. H. Watson and Harry Leicht will go to southern California. The rest of the men disbanding for the winter. They have been in the Douglas building drying out their supplies prior to storing them until spring.

Welches

We have had a regular snow storm here during last week. Snow commenced falling Thursday, Nov. 9th and continued falling until Saturday morning, to a depth of twelve inches, the thermometer ranging during that time from 33 degrees to 23 degrees or 10 degrees below freezing, being the coldest period. It commenced raining Sunday morning and at present writing—Monday afternoon, we are having a chinook wind with warm rain. There was about two inches of snow left on the ground the first of last week. Salmon river rose about three feet on account of the heavy rains preceding the snow storm.

O. A. C. Man on Cherry Gummosis.
 Some of the results of investigations on cherry gummosis made by Fred L. Griffin, formerly a graduate student and assistant in plant pathology at the Oregon Agricultural College, are given in a preliminary report in "Science."

"Certain varieties of the cultivated sweet cherries found in the Pacific Northwest are very subject to a diseased condition which is commonly known as 'cherry gummosis,'" says Mr. Griffin. "The disease is characterized by more or less copious exudation of gum from the trunk, branches, spurs and buds as well as by a pustulated appearance of the bark near the diseased areas. Often but little gum is exuded, but in such cases an examination of the affected trees generally discloses discolored tissues which is infiltrated with gum. Such areas are spongy to the touch and are usually discernible by the variation in color of the bark as compared with that of the normal."

"Cherry gummosis appears in both a localized and generalized form. In the former, the disease is apparently confined to rather limited areas on the trunk or branches, such areas being most often associated with a blighted spur or bud. In the generalized form, large areas of the trunk or branch may become involved, and it often results in complete girdling. This latter type of gummosis often appears to originate in the crotch of the tree."
