"The Linotype Way is the Way that Wins."

Entered as second-class matter March 3, 1911, at the post office at Gresham, Oregon, under the act of March 3, 1879.

MR. DAMMEIER'S OFFER.

The offer of G. H. Dammeyer, published in this issue of the Outlook is certainly one to cause admiration and action.

The Outlook started out a few weeks ago to try to arouse interest in the matter of beautifying our city. We have corresponded with a florist and rose grower to try to get wholesale rates on rose bushes with a view to giving any who desire them the benefit of those rates.

Now Mr. Dammeyer comes to the rescue with the most generous offer that could be asked for, in a way to arouse enthusiasm and encourage effort. And this comes entirely unsolicited on his part.

The Outlook is glad to see Mr. Dammeyer take this up in this tangible way and we believe all our citizens will show their appreciation by going to work at once to do their part not for the sake of a prize but with that as one incentive.

Gresham should be a second Rose City—another Pasadena—a place of beautiful grounds and homes. With city water available this will be all the more easily and cheaply accomplished. The satisfaction it will give the home owner will be ample reward. It is time to begin if you are to do much at it this summer.

To Help Homesteaders.

Declaring that the Borah-Jones three-year homestead bill, which also gives a six months' leave of absence each year, must be passed this congress, it settlement of the Northwest is to be encouraged, Representative Lafferty has sounded the keynote of the fight that is now being waged for a favorable report on the bill before the House Public Lands committee. The hearing before the committee today was attended by all western congressmen, and at the conclusion of the hearing, the members present voted unanimously to carry the fight onto the floor of the House for the passage of the bill.

In his speech Representative Lafferty pointed out that the Canadian homestead law only requires three years residence, and permits an absence of six months each year.

Miner Tests Rock Quarries.

Two rock quarries near Albany have been examined by Prof. H. M. Parks, head of the Oregon Agricultural College School of Mines, at the request of A. C. Schmitt of the First National Bank. Laboratory tests will be made at the college to prove its availability for use in the new Albany Carnegie library and the superstructure of the Presbyterian church there, in the foundations of which some of the stone has already been utilized.

The pictures of political aspirants are about all that can be seen in the show windows nowadays. And how good and friendly the men are. Of course, they are all good fellows and it's hard to choose between them, but it's plain somebody's going to get left. It's a good time to look up a man's record before April 19.

The Outlook wants your news, your ads, your subscription, your printing.

The Outlook is on the lookout for subscriptions, advertising and printing. Phone 701.

Pleasant Valley

Homer Woodard and family of Portland have moved out and taken up their residence with Mrs. Woodard's parents, Mr. and Mrs. W. B. Steele.
