THE weekly wash is by no means an easy task, and whoever does the work is entitled to the latest appliances for making it less a labor and as agreeable as possible.

This can be done by having us install "Standard" porcelain enameled laundry trays. These fixtures are non-absorbent and perfectly sanitary.

Let us show you how your laundry equipment may be improved.

MANY MORE MEN

might have achieved greater success in life had they used more care in the forming of a good bank connection and after having made the acquaintance of a good bank been more constant in building up their business with that bank.

HALF THE BATTLE

is having a bank interested in your welfare, a bank that studies your business as you study it yourself and handles your business as it would handle its own, a bank that does not forget that its constant and regular customers are entitled to accommodations even though it is possible to invest its funds in other lines more profitable to the bank, a bank with which you can do business and have no fear of your business being divulged to another.

Such is our bank and we cordially invite you to come in and see us before making permanent banking arrangements.

It Pays to Spray Intelligently

THE man who sprays his fruit vegetables intelligently is the one who will have the bumper yield to send to market. The large increase in the number of insects attacking trees and garden truck throughout the country makes it absolutely necessary for the farmer or grower to protect his crop by the proper use of insecticides.

SHERWIN-WILLIAMS NEW PROCESS ARSENATE OF LEAD

will help you to secure bigger profits from your orchard and garden because its application will insure a much larger percentage of perfect fruit and vegetables which will of higher market value for you. S-W arsenate of Lead is light in gravity and will fall in suspension. It is sure death to leaf-eating insects, but will not burn or blight the foliage.
