Pleasant Valley

Several lots have been sold in Cedarville in the last few days including the Cromwell block. The same was purchased by Richard W. Forbes.

Jesse J. Hawkins is building an up-to-date cottage on his place just east of Damascus.

Donley brothers have the foundation laid for a new tool and implement house on their ranch. The boys have one of the finest farms in the valley.

Jas. Robinson, who has been confined to his bed for several weeks, is able to be up and around again.

All lots in Cedarville will advance ten per cent in price from this on.

The county commissioners are having all the bridges in this vicinity replanked. This is quite an expense as these bridges decay and need rebuilding. They should not be replaced by wooden structures any more. The streams are all small and it would not require a very large concrete arch to let all the water pass that comes down their course. There is abundance of material to make solid fills. The work once done in this manner will be permanent and never need to be repaired.

House Cleaning

Time is here again, you will need to tint your walls.

KALSOMINE

Is a sanitary cold water wall coating for all interior use. It spreads easily and does not show the laps.

All tints in five pound packages, enough for ordinary room for 35c a package. Ask for color card.

It Pays to Spray Intelligently

THE man who sprays his fruit or vegetables intelligently is the one who will have the bumper yield to send to market. The large increase in the number of insects attacking fruit trees and garden truck throughout the country makes it absolutely necessary for the farmer or grower to protect his crop by the proper use of insecticides.

SHERWIN-WILLIAMS NEW PROCESS ARSENATE OF LEAD

will help you to secure bigger profits from your orchard and garden because its application will insure a much larger percentage of perfect fruit and vegetables which will be of higher market value for you. S-W Arsenate of Lead is light in gravity and stays well in suspension. It is sure death to all leaf-eating insects, but will not burn or blight the foliage.
