W.'s might be deported, and where, at leisure, they might apply their particular talents, with a view of a practical result. It is proposed, through the Heintzelman Post, G. A. R., of San Diego, that the public display of the red flag of anarchy shall be made a felony. That all alien anarchists shall be deported to the countries whence they came, and that one of the islands owned by the United States shall serve as a penal colony, to which citizens of this country, who have become anarchists, shall be transported and detained, together with such other state criminals and enemies of this state by the courts.—Exchange.
