"The Linotype Way is the Way that Wins."

Entered as second-class matter March 4, 1911, at the post office at Gresham, Oregon, under the act of March 3, 1879.

A Widening Memorial.

Like everything else, holidays undergo a gradual change in spirit and observance. When Decoration day was first set apart many persons predicted that its observance would last only so long as the present generations which knew the participants of the Civil war.

As other wars come in the long line of history, the graves of their heroes will also be decorated. There is already a tendency to hold on this day memorial services for firemen and others who fall in the performance of duties.

The Task of the Voter.

There is a stupendous task before the voters of Oregon in November. Important measures under the initiative and referendum are proposed for adoption.

New constitution, abolishing the present state and county government and substituting an entirely new form with governor and cabinet one legislative body, and state and county business managers.

Single tax (state) Single tax (county) Public road commission. Road bonds (\$10,000,000 in ten years at rate of \$1,000,000 a year.)

Abolishing capital punishment. Minimum wage for all industries. Eight-hour day.

The people of Oregon are to determine for themselves great problems deeply concerning their welfare. Disastrous results will follow a mistake, or series of mistakes.

All the big timber in this locality is not yet cut. On the southeast slope of Mt. Scott on the ranch of Tony Setchen there is a giant fir tree twenty-five feet, six inches in circumference, and it is fully 100 feet from the ground to the first branches.

SUMMER COURSES AT AGRICULTURAL COLLEGE

An illustrated bulletin has been received announcing the courses of the summer school of the Oregon Agricultural College. The summer session begins Tuesday, June 18 and last until Friday, July 26.

The extraordinary interest throughout the state in industrial education is clearly indicated in the efforts of the Oregon Development League, the various state commissions, bankers' associations, commercial clubs, transportation companies and newspapers, to promote the intelligent development of the vast unused resources of Oregon.

A great victory has been scored by the Pacific coast in the passage of the Panama canal bill through the House of Representatives, providing for free tolls for American ships engaged in the coastwise trade.

The man who keeps himself straight and pays his living expenses these days will find little time left for berating those who go astray.

What Single Tax Would Do

- It would— Tax land only Destroy land values Make the State the landlord Force the owners to be tenants Destroy incentive for gain Breed indifference and decay Undermine our Social System Greatly retard Social Progress Spread alarm and fear Check investments in the State Paralyze industry Do irreparable harm Advertise Oregon as a dangerous state Be a great step backwards It would not— Tax loan sharks Tax monopoly Tax commodity speculators Tax automobiles and luxuries Tax jewelry and diamonds Tax great incomes Tax those most able to pay Help the poor man Relieve where relief was needed Help Oregon Oregon don't want it!

FREE FARE TO THE COAST

A shady, grassy nook in the most beautiful part of the Pacific coast, finest of bathing, either surf, salt or fresh water. Prices low. The best terms ever offered. 5 per cent down and 2 per cent a month, or 5 per cent discount for all cash.

Venice Park

between Gearhart and Seaside. John Brown, Agent, Gresham, Ore.

880-YARD RUN. Division A. First, Jones, Gresham; second, Hill, St. Johns; third, Bugbee, St. Johns. Time 2:13 3-10.

In the above list "Gresham" means Gresham Division. There were a number of fine athletes from other than the Gresham school who won good points for their division. Among these Orinet school did a large part.

Is there any thing in all this world that is of more importance to you than good digestion? Food must be eaten to sustain life and must be digested and converted into blood.

Getting Rid of Plant Lice.

Plant lice are playing havoc with rose bushes, currants and various garden crops at this season, and A. L. Lovett, assistant entomologist at the Oregon Agricultural College, has prepared directions for recognizing and getting rid of the pest.

On currant bushes the work of the lice at present appears as irregular galls on the leaves, discolored a deep reddish hue. On the under side of the leaf are found many small, pale green, soft-bodied insects with their beaks inserted in the plant tissue, busy sapping the plant juices.

Another solution is the kerosene emulsion spray. Half a pound of hard soap is dissolved in a gallon of boiling water, and when removed from the fire two gallons of kerosene is stirred in.

The Vancouver Commercial club has started a new work which other clubs might well follow up, namely, the suppression of frogs.

The Kelso, Wash., high school graduating class is made up of seven girls. Their class motto is, "No pushee, no pullee." Gresham is ahead of this, with nine girls and one lone boy.

The Outlook will visit a relative or friend for you 104 times during the year, brim full of news. Isn't that worth something to you?
