Delate Illihee ten acre tracts furnish an excellent investment for a young man or woman—a few trees on each tract—all have cleared land; five have running water through summer months, two have running springs on high ground.

All of these tracts are most excellent buys. Some as low as \$150.00 per acre. Ten per cent cash is all that is asked, balance can be paid monthly, quarterly or semi-annually and the young man or woman who is working for a salary and is fortunate enough to get hold of one of these tracts can in a few years have a comfortable home and never miss the cash that he or she has paid into the property—like making deposits in a savings bank. All payments may be made at this bank.
