

CANNERY ASKS FOR BONUS

The establishment of a cannery in Gresham, with a farmers' Equity Market, reached a definite stage in the course of its development...

The Commercial club and directors of the county union were in separate session early in the evening and later held a joint meeting with C. R. Keller in the chair.

M. O. Nelson was called upon to state the purpose and plan of the Gresham Equity Market. He said the Farmers' Society of Equity was a co-operative organization...

Mr. Nelson said this had been a hay and potato country, but land at its increased valuation could not be made to pay on that basis today.

Their proposition, as voiced by Frank Michelson, was that the club or individuals guarantee a 25 per cent bonus on the amount invested...

The members of the club present, among them bankers, business men and a lawyer, were puzzled to know how to get at the matter in a definite way...

A committee of three was appointed to devise ways and means to raise the desired bonus.

The committee consists of Everson, Meyers and Carlson. A unanimous willingness was shown to get the proposition in such shape that the town as such could do its part...

RACING PROGRAM FOR FOURTH

A 2:20 trot and a 2:15 pace are the two most attractive events of the many, on the Fourth of July racing program of the Gresham-Riverside Amusement club. And divided between these two are \$500 in cash prizes. This it is said will mean that some of the finest horses in Multnomah county will be attracted to this race and will make an exhibition of horse flesh at Gresham on the Fourth worth many times the price to see.

Besides these events are a 2:30-trot and a 2:25 pace. These, on the fine half mile track, promise to be above the average in interest.

Two running races by local horses for substantial prizes are on the program, also a motor cycle race.

Enameled Fixtures, How to Keep Them Glossy.

Enameled plumbing fixtures have a glossy finish when new but soon lose the gloss when cleaned with any cleaner containing gritty substances which gives the impression that the enamel is not first quality. U. S. Standard bath room cleaner is made especially for enameled ware and will keep them pure, white and glossy and will not injure them in the least.

It also is a general household cleaner. Cleaning any kind of metal glass and painted woodwork with ease. It cleans windows with little rubbing and does not splash over the surrounding woodwork like when washing them.

Ask for demonstration at Sterling & Kidder's See window display.
