Yamhill, McMinnville, Corvallis, Alsea, Albany, Eugene, Molalla, Salem, Falls City, Canby, Aurora, Lebanon and many other points are to be reached by this new system of roads, which will develop the country reached as nothing else can. With these big improvements going on the biggest crop in its history to be harvested, the state has nothing to fear from the usual blighting effects on business of presidential year.

**Enameled Fixtures, How to Keep Them Glossy.**  
 Enameled plumbing fixtures have a glossy finish when new but soon lose the gloss when cleaned with any cleaner containing gritty substances which gives the impression that the enamel is not first quality. U. S. Standard bath room cleaner is made especially for enameled ware and will keep them pure, white and glossy and will not injure them in the least.  
 It also is a general household cleaner. Cleaning any kind of metal glass and painted woodwork with ease. It cleans windows with little rubbing and does not splash over the surrounding woodwork like when washing them.

 Instead of an apple show, Portland will hold a land products show this winter that will be the first of its kind in the Pacific Northwest. It is hoped to make it an annual event availing in interest the big land shows of the East and Middle West.  
 November or December will probably be the time of holding the show and it is planned to have it last two weeks. In scope it will cover the entire Pacific Northwest and all the states included in this territory will be asked to co-operate and send exhibits.  
 It is desired to have every product of the soil assembled here at that time. Commercial bodies will be interested and it is hoped to develop this event into an annual attraction that will appeal to people throughout the whole country who may be attracted to the vacant lands of the Northwest states. The land show project has the support of the Oregon Development League and the chief organizations of Portland and the state.
