

WILL BUILD HALL FOR MACHINERY

With less than two months yet in which to prepare for the coming fair, the Board of Directors of the Multnomah County Fair association held an interesting meeting on Monday afternoon for the purpose of expediting matters with the view in mind that nothing must be left undone if the exposition is to be all that it now gives promise of being.

Probably the most important action taken was an order increasing premiums to be paid for grange exhibits. It was reported that at least five granges are preparing exhibits to compete for the three big prizes of \$100, \$50 and \$25 offered in the premium list, and it was felt that the granges should all be recognized in the awards, so it was decided to offer an additional prize of \$25 for all grange exhibits scoring above 65 per cent. It is practically certain that every grange display will reach that point of excellence and the amount offered will compensate them for their efforts.

In the matter of juvenile poultry exhibits the rules were amended so as to allow competition by all under 18 years of age. This will admit of exhibits by several who would otherwise have been shut out, and it is known that there are several children who desire to compete in the poultry line who will now be given an opportunity.

A machinery hall was authorized to be constructed at a cost not to exceed \$600. It will be 40x80 feet and will be built just north of the big pavilion with an entrance therefrom. With the demand for more space it was conceded that the new structure would be a necessity.

Two hundred quarter-sheet lithograph posters were ordered which will be posted throughout the district as soon as they arrive. Other advertising matter is being prepared and will be sent out as soon as needed, including liberal space in the Portland dailies and other newspapers throughout the county.

The two electric pillars from the Elks court of honor used during the recent carnival have arrived and are to be used to build an arch at the entrance to the fair grounds. The contract for the completion of the arch will be let by the committee of arrangements. Also, there will be a hitching rail for teams along the fences and at suitable places, so as to conserve the space as much as possible. Automobiles will be required to occupy the field along the eastern side of the grounds.

Every indication points to a very successful fair this year and preparations are being made early to handle the expected crowds.

Furrow attractions are sure to be among the best ever assembled here and other concessions are applying for space on the grounds. The racing association is preparing a good card and will engage the band music for the occasion. There is a prospect that the Gresham band will be reorganized under the leadership of Dr. H. H. Ott, which is desirable, if it can be done.

Copies of the premium list are still being circulated in limited numbers, although the country hereabouts has been quite liberally supplied. A few more may still be had by applying to the secretary, at the Bank of Gresham.

New Feature at Scenograph Theater.

There will be a new feature at the Scenograph Theater, starting next Thursday, Aug. 8. There will be a comedy drama once each week. The first play will be the Editha's Burglar. T strong melodrama by the Wright Company. Price of admission will be as usual, 10c.

Flax in Oregon.

Flax will make quite a showing this year in Oregon, according to reports from those sections where the crop has been planted. Plantings made in the Willamette Valley last spring are looking exceptionally well and experts say it is as good flax as is usually seen. It is believed there is a great future in the Pacific Northwest for the flax industry. About 5,000 acres have been planted to this crop this year.

DR. SHORT WILL MOVE

For some time rumors have been rife of a transfer of Dr. J. M. Short residence property here to Arthur Dowsett and the prospective removal of Dr. Short and family to Portland. These reports have been found, on careful investigation, to be based on fact. In the deal pertaining to the residence property Dr. Short has taken over an interest which Mr. Dowsett had in a splendid farm property at Orient.

Dr. H. H. Hughes, who has recently become associated with Dr. Short will occupy the Short residence on the removal in the near future of the Short family to Portland. Dr. Hughes' mother will make her home here.

Dr. Hughes is a graduate of Rush Medical college in Chicago and has practiced in Portland. He was house doctor at the Good Samaritan hospital one year. He is a young man and is very capable and well liked.

Mr. Wood and wife of Pleasant Home attended preaching services at the M. E. church Sunday. Mr. Wood kindly acted as organist in the absence of the regular musician.

The people of Estacada certainly are persistent in their efforts towards the division of Clackamas county. But the fact that the commercial club of Oregon City has subscribed \$5,000 to defeat the measure will no doubt put a damper on their enthusiasm, not to say anything about what is being done in this locality as the voters here are decidedly against dividing the county.

SAD ACCIDENTAL DEATH OF BOY

Reuben Alfred Alm, the 12-year old son of Alfred and Minnie Alm, of Powell Valley, met an untimely death last Friday afternoon while at Bull Run attending a Sunday school picnic of the Swedish Mission church at Powell Valley. He was with his parents, and was run into by a gravel train while trying to cross a short trestle. It is said he, with others were hurrying to get to the platform when an engine pushing two dump cars approached coming quite fast. All succeeded in getting off the track except the boy, who is said to have turned and ran back. It is claimed if he had not fallen he would easily have gotten out of the way. The car struck him severing the head and one arm above the elbow.

Hotel Gresham

In the First State Bank Building, opens with far better trade than expected. Opening as it did in the vacation period and dull season of the year, it was thought very little business would be done, before the winter months, but its location on Powell street, the main auto road to Mt. Hood, demands of it services to automobile and motorcycle parties that it did not expect. Its superior accommodations for such parties both in the Cafe and Hotel are unsurpassed. The hotel is furnished in a first-class manner with all new furniture and bedding, hot and cold water in every room and each room with outside windows and separate baths. One room has been set apart for reading and a correspondence room, while the parlor is a very pleasant room, facing on Powell street. The cafe is arranged with open tables and large commodious boxes and also a counter at which lighter lunches will be served.

As soon as it is possible to arrange it a large reading room will be placed in the north end of the building in connection with a smoking room for the gentlemen. A pneumatic tank will be placed in the basement and free air furnished to automobiles and motorcycles. Mrs. S. G. Hepburn, the landlady comes recommended as having operated very satisfactorily, a hotel for the accommodation of students at State Normal School at Tablequah, Oklahoma and solicits the trade of teachers and students of the Gresham schools.
