

SANDY IS FAST BUILDING UP

[Special to Outlook.]

SANDY, Aug. 13.—Never before in the history of Sandy has there been so much activity in building as during the present year. Many new business houses have been completed, or are in course of construction, and many more are being planned by our progressive citizens.

Otto Meinig's new building on upper Main street is a credit to the town. It is built in neat bungalow style, 40x60 and one and a half stories high, and is equipped with the latest gas lighting system. A part of this will be thoroughly equipped and used as a postoffice and stationery store, and a part will be for rent.

A fine large two story business block 60x80 was recently erected by P. T. Shelley. One of the two large store rooms on the ground floor will be occupied by R. E. Esson, who will put in an up-to-date drug store. The upper story will be used as a dancing pavilion. G. Talmage, the builder, exercised unusual skill in laying the floor, making it one of the finest dancing floors in the county.

The Odd Fellow's building has been enlarged, and now has the largest floor space of any building in the city. The ground floor is occupied by the Sandy Mercantile company, with A. L. Denton as manager. The upper floor is used by the Odd Fellows, Grange and other orders for lodge purposes.

P. T. Shelley has erected for Harry Thomas a large building to be used by him as a paint establishment. Mr. Thomas has built up a splendid business since coming here, and is ready to supply anybody with small or large amounts of paint, or do their painting.

The city of Sandy has built a handsome city hall with jail, on a lot purchased from P. R. Meinig.

The Mt. Hood Hotel company has completed a two and a half story hotel building. It is furnished throughout and will soon be occupied as a first-class hotel.

Another building lately finished is that of the Mt. Hood Creamery company. This is equipped with modern machinery and H. Curtis, an expert butter maker has charge. The butter has a sale far beyond the expectations of the members of the creamery association. In fact they cannot supply the demand. They are paying the farmers a cent a pound more for cream than was ever paid here before, and all are highly elated with the result.

The Lutheran church will build a \$2,000 school house this fall. It is expected that the contract will be let this week.

Residences in course of construction or nearly finished, are those of D. W. McKeen, J. E. Pomeroy, W. W. Pomeroy, H. Pratt and B. Fellows. Proctor & Straus have erected five fine residences and will put up several more at once. A Miller has the contract for an \$1100.00 house to be built for Mrs. G. Daarens. A. Louderback is clearing the ground for a two story house and P. E. Beckwith, the new jewelry man will build a home. C. D. Purcell, who recently opened a law office in Sandy, is negotiating with contractors for the building of a residence.

The Sandy Land company is contemplating the building of several houses in the near future. This company has cleared up considerable acreage recently which they have platted. Many lots have already been sold. Among the buyers are a number of Portland people who believe in the future of Sandy, and who will help it to grow.

Sandy's latest acquisition is a brass band of 14 pieces, under the management of George Beers. Professor Ugans of Eiler's piano house is training the boys. They are doing wonderfully well. They started about July 1st, and have progressed so well that they gave their first concert last Saturday evening. They surprised and pleased the people of Sandy by their fine playing. We hope to see them prosper and gain in membership.

Not the least important factor in helping to build up Sandy, is the Sandy Land company. It is ably officered by W. A. Proctor, president; John Straus, vice president; Ed. F. Bruns, secretary; and Frank

Continued on page 4.

WELCHES CAMP INVITING PLACE

D. M. Roberts of Gresham was nearly drowned on his vacation at this place. He had been lounging around camp all day, and getting restless toward evening, he got his fish pole and basket and started fishing along the river near his place. The bank of the stream is quite high on that side of the river. He had been fishing for some time and had made an extra long cast, when a large trout jumped at his fly and was caught. He said afterward that the surprise was so complete that the fish nearly pulled him clear under the water. As it was it is believed that D. M. got his feet wet. The trout was about 8 inches long.

Chas. Gedamke and family had a bonfire at their place Friday evening which was well attended by young and old. Singing songs, telling stories, pop corn, roasted marshmallows were included in the program for the evening.

Lots of autos are buzzing around these days. The roads are in fine shape for auto travel.

Mr. and Mrs. Ed. Sleret and daughter of Portland are spending a few days rustivating at Sleret's island.

Mr. and Mrs. Geo. Sleret are occupying their cottage on Sleret's island and expect to spend a couple of weeks taking life easy at their island home.

Dr. J. M. Short's palatial bungalow is nearing completion and will soon be ready for occupancy.

One man was arrested for having fish under size but the warden did not allow for shrinkage it being a warm windy day so the fisherman was let go with a lecture. The game warden in this section are making many enemies as they use no judgment in their actions, and seem to catch all the people in an underhand way, if they can. No one here would object to game wardens at all if they would act like white men, open and above board, and they would receive the co-operation of the people living here, instead of being objects of ridicule.

F. E. Beckwith has been spending a few days at camp Linger Longer. The camp grounds are crowded full and almost overflowing with campers besides all of the cottages are occupied which makes Welches a very busy place and almost city like. A grand masquerade ball will be held in Welches opera hall, Monday evening, which will be the crowning event of the season.

The Messrs. Tawney at Hotel Maulding are doing a rushing business, having a full house all the time.

Mrs. A. L. DuPuy of Weona cottage had the misfortune to cut the end of her thumb off to the bone while splitting kindling. The patient was getting along nicely from reports.

Eastman Kodaks. Films, Plates, Paper, Postcards, Developer and other supplies. Kodak films developed and printed. W. H. Burke, Main street, Gresham.

STRAUS LUMBER CO.'S MILL.

The above shows only a small part of the company's lumber yard located near Sandy. A full description of their splendid lumber producing plant was given in Friday's Outlook. We regret the picture could not appear with the article.

Special Number of The Outlook Friday, August 16

NEXT FRIDAY'S issue of the Outlook will be a large double number, well illustrated, containing special articles pertaining to the business interests of all Eastern Multnomah County.

Watch for it, read it, save it. It will pay!

EQUITY MARKET OPEN TO RECEIVE PRODUCE

The Gresham Equity Market which is now open all day and prepared to receive produce every day, reports that considerable produce has already received and the prospect is that a large quantity will be moving before the end of the week. Farmers in general are holding potatoes in the ground until they are thoroughly ripened and this is by far the best plan where possible, as green potatoes must be sold at once or they will spoil. The co-operative Supply House to which all produce is turned over has ample storage room in an immense new concrete basement and as soon as potatoes will keep can take care of large quantities.

Chas. McCarter has been employed with his teams to do regular hauling for the Equity and will take care of the hauling until the business assumes such proportions that an auto is necessary.

Regular trips will be made hereafter to Orient and Springdale on Monday and Thursday of each week, to Springdale in the forenoon leaving there about 9:30 a. m., and Orient in the afternoon leaving Nelson & Johanson's store at 3 p. m.

Produce may be left with W. W. Northway at Springdale, and with Nelson & Johanson at Orient. The wagon will also stop for produce on the road between these points and Gresham, or on roads west of Gresham leading to Portland. Arrangements have already been made for these teams to haul goods for local merchants or private individuals on return trips.

WONDERFUL PRODUCTS OF GRESHAM GARDEN

There are on exhibition at the Outlook office, two fine Early Rose potatoes, grown in the garden of Mrs. S. T. Crow. The two together tip the beam at exactly two pounds 1 1/2 ounces. That's pretty good for this early in the season, especially taking into consideration the fact that the big balloon which was here on the 4th, dropped down right in the middle of the patch. Mrs. Crow says the garden is full of these magnificent tubers.

Potatoes are not the only things that grow well in that garden. Last Sunday Mrs. Crow picked a mess of well developed roasting ears, from corn stalks standing ten feet high. Her pole beans have reached up to a height of twelve or more feet and have been tied to a telephone pole, and the growing season isn't over yet.

This garden is the work and pride of Mrs. Crow's father, Mr. Dewey.

Bell-Zilm Nuptials. Miss Azalia Bell and Jack Zilm were married in Portland last Saturday. The bride is a niece of Mrs. Ella Hornish and lived with her for several years. Mr. and Mrs. Zilm will make their home on their farm near Springdale.

Victor Halter Wanted. Communication is desired with Victor Halter concerning unfinished work. If it is not finished before Aug. 20, someone else will be employed.

MRS. I. McCOLL,
MRS. S. R. BRADFIELD.

FAIRVIEW DADS DEVELOP PLANS

FAIRVIEW, Aug. 12.—One of the busiest meetings ever held by the common council was last Saturday evening, adjourning at 11 o'clock. An ordinance authorizing the sale of bonds for city park and playground was passed to the third reading, also ordinance regarding licenses on pool and billiard tables passed to the third reading. The recorder was instructed to advertise for sealed bids on the building of our city hall as the money is now available. A representative of the Columbia Engineer works was present and the city has secured a chemical fire engine which will be unloaded and demonstrated this week under the supervision of Captain Cree, who will proceed at once to organize a fire company with J. P. Province as chief. As several complaints have been entered regarding the pollution of the creek passing through our town used as a public watering place by man and beast, this matter will at once receive the proper attention at the hands of those whose duty it is to prevent such and remove such nuisances to the public. Several other lesser matters were taken up and the city was found in a flourishing condition with lots of work for council the next three or four months.

SWEDISH CHURCH TO BE ENLARGED

Arrangements are being made to reconstruct and enlarge the Swedish Mission church at Powell Valley. When finished the building will be 36 feet wide by 70 feet in length and will be so arranged that it will be commodious and capable of seating about 600 persons. The building committee in charge of the work is Oscar Ekstrom, O. Shuholm and E. J. Gradin, who have all the plans in hand to begin work next week. The services next Sunday will probably be the last in the present building before the work of rebuilding begins. Rev. Jonas Johnson who lately returned from South Dakota, will be the permanent pastor, and to him is due the reorganization that is going on. He built the present edifice about seven years ago. Sunday services are as follows: Sunday school, 10 a. m.; preaching, 11 a. m. and 8 p. m. A feature of the services is an excellent choir and good music. All persons are invited to attend these services, being assured of a cordial welcome at all times.

Baseball.

Last Sunday's game at Fairview between the home team and Macca-bees 10:16 was witnessed by many enthusiastic fans. The day was ideal and the fine playing on the part of both teams was greatly enjoyed. The score stood 7 to 0 for the farmers but it wasn't an easy walkover by any means. Both teams played well, no one got rattled and there were few errors worth mentioning. It was just a hard earned victory by the Fairview boys who got in the lead and by careful playing shut their opponents out.

Next Sunday afternoon at 2 the Fairviews will cross bats with the Honeyman Hardwax team and the following Sunday, the 25th, a game is scheduled with the Portland Eagles. There is no better amateur ball playing than right here within easy reach.

Birthday Surprise for Mrs. Kern.

A party of neighbors and friends gathered last Friday night at the home of Mrs. M. D. Kern, to help her celebrate her 58th birthday. The affair was a surprise to Mrs. Kern. The evening was spent in card playing. The party included Mr. and Mrs. Jas. Elkington, Mr. and Mrs. E. G. Kardell, Mr. and Mrs. George Leslie, Mr. and Mrs. W. R. Kern and Mrs. C. Merrill, all of Gresham, and Mrs. C. L. Kimmer of Salt Lake, Utah.

Votes for Women Meeting.

A meeting has been called under the auspices of the Women's Civic Improvement League, to consider methods for increasing interest in the equal suffrage question. The meeting will be held next Friday, Aug. 16, at the home of Mrs. Chas. Cleveland, at 2 p. m. Mrs. Albert Ehbrott of Portland and Mrs. Wiley of California are expected to be present. All women interested in "votes for women" are urged to be present.

Auction Bargains.

Our friends, who are looking for a fine driving horse, a fine bred cow, a few pieces of furniture, a reliable farm machinery, musical instruments, draperies or other articles, even if they have only a part of the money to pay down, will do well to peruse the partial list that will appear in the next issue of the Outlook—we refer to the auction to be held at Merrill's Rose Vista Farms Saturday, Aug. 24.

Bids Wanted.

Notice is hereby given that the view, Oregon, will, up to 12 o'clock city recorder of the city of Fairview, August 24, 1912, receive sealed bids for the furnishing of material and building for city hall for the city of Fairview according to plans and specifications now in the hands of the building committee. Said bids must be accompanied by a certified check of 10 per cent of the contract price. Right is reserved to reject any and all bids. Plans and specifications can be seen at C. E. Crees or E. A. Whitney's.

Mark all bids "City Hall."
J. H. SCHRAM,
City Recorder.
