### PRAISES FOR THE WILLAMETTE VALLEY

Cleone, Aug. 17—Editor Gresham Outlook:—Willamette Valley needs more small practical farmers. I was making a short trip through Washington, Yamhill and Marion counties, and found that some of these farms run from 160 acres up to 1,000 acres, where one farm could be cut up into several small ones which would make it more profitable for the individual as well as for the whole country. We have one of the most beautiful valleys, for its natural attractiveness as well as for the variety of its productions, with which God ever blessed any people. The writer found the most beautiful, homes which he has seen anywhere in the states. I hope to see the time in the near future when these large land owners will cut up their holdings and put the land on the market for such figures that the people could afford to buy and make homes, and help to settle up the land that is now lying idle. Many men who want to till the soil, would thus have the opportunity.

OSCAR GUSTAFSON.

### Guinea Pigs, New Industry

Continued from page 1.

tion, although he keeps about 80 at his home on East Tenth street in Portland. Through study he has become an expert in raising the little animals. The raising of guinea pigs is by no means a simple matter. Selected food is necessary otherwise they would be useless for scientific purposes. Tomatoes are deadly food.

Raising and caring for the animals is a side issue and pastime for Maurice, as he goes to school and has his other interests the same as any full-blooded boy, but his greatest pleasure and pride is in the fascinating little animals, and he delights to take his playmates to the pens to show them and explain how he handles them. Some of his friends, under his advice and instructions, have tried to emulate him, but so far with only indifferent success. Mr. Mann gives his son some assistance and helped him get started, but the work and responsibility rests on the shoulders of the 13-year boy.

The pens in which the guinea pigs are kept on the Springhill farm attract wide attention, and many physicians and scientific men, go to inspect the farm and the methods used. The animals must be kept perfectly clean to be of use for scientific experiments, and for health investigations their value is hard to estimate.

No other animal has contributed so much to the sum of human information in medical research. There is scarcely a disease that cannot be investigated through the use of guinea pigs in determining the various germs.

### GOOD ADVICE

Here is some sound advice for old and young, in the exact words it came from the lips of five of the South's greatest men:

"When to the intelligence of Southern men we have added the wholesale instinct of saving money, no race will equal us."—Robert E. Lee.

"The lesson we must learn is the value of money and the value of saving money. Economy makes strong, industrious, successful men. I cannot state this too emphatically."—Jefferson Davis.

"Save your money and thrive or pay the price in poverty and disgrace."—Andrew Jackson.

"Save and teach all you are interested in to save; thus pave the way for moral and material success."—Thomas Jefferson.

"Men of the South—save. You must learn this lesson or that economy which so stiffens the North and inspires and stimulates its industry, will overwhelm you."—Henry Clay.

**SAVE is The Word**

### BAND BENEFIT AT SANDY

The people of Sandy feel considerable pride in their band, which was organized less than two months ago. They have made considerable progress under the training of Arthur Ugen of Eller's piano house, who gives them instruction once a week. The band consists of sixteen pieces. The instruments are all first-class, made by C. G. Conn, and the organization is out of debt. The players are as follows:

Cornets, Clem Bartsch, A. G. Bornstedt, Alex. Grey, George Henney and F. Winchi; trombones, W. E. Grunnert, G. M. Talmage, W. Smith and E. Wolf; baritone, Clarence Kehref; altos, Henry Perrett and Ronald Esson; clarinet, Gus Dahrens; bass horn, Otto Dahrens and R. S. Smith; bass drum, E. B. Grey; snare drum, Raymond Grey.

A grand ball will be given Saturday night, Aug. 24, at Shelley's hall, for the benefit of the band. A good Portland orchestra will furnish the music. Frank McGugan will be floor manager.

### Sandy
