"The Linotype Way is the Way that Wins."

Official paper of the Town of Gresham, Oregon.
Official paper of the Town of Fairview, Oregon.

Entered as second-class matter March 3, 1911, at the post office at Gresham, Oregon, under the act of March 3, 1879.

The planting of a 250 acre walnut farm will be begun in Yamhill county. The culture of walnuts has proved one of the most profitable industries for the farmers of Yamhill and a company proposes to go into it on a big scale.

"Not only in Colorado but in nearly every other state the good women outnumber the bad by 200 to one. The bad women do not willingly vote at all. Let the men look after the bad man vote and the women after the bad woman vote. The women would have the easier task."

Teach Bee Raising.

For the benefit of students in the horticultural and general agricultural courses at the Oregon Agricultural College who expect to have a few stands of bees, either for producing honey or for fertilizing fruit blossoms, a course in agriculture will be given at the Oregon Agricultural College by Prof. H. F. Wilson this winter.

On account of the great interest taken by the students in the winter short course last year, a regular series of short course lectures covering a period of two weeks will be given in which special attention will be drawn to the proper management of bees in the orchard. The college opens Sept. 24, and the short course January 6.

Repairs are being made on the building occupied by the college apary, and two large commercial seed companies have donated equipment to be used in the regular instruction and in demonstrations. The work in beekeeping is elective to the students in agriculture and domestic science, and covers one laboratory period a week.

Estacada

ESTACADA, Sept. 26.—The citizens of Estacada gave the teachers and the high school pupils a reception at the school house last Friday evening and the schoolhouse was lighted from basement to attic with 250 volt Tungsten lamps, and was certainly well lighted. They had a very nice program and light refreshments after the program. L. E. Belfils made the opening speech reviewing the school from the time when there was only one room and one teacher. Now he says we have as fine as the finest in Oregon. Mr. Burges, F. Ford is superintendent and a splendid lot of teachers this year. The school board is composed of J. P. Woodlee, L. E. Belfils and J. W. Reed, Mrs. Sarah E. Balis, clerk. Everyone is proud of our Estacada school and well should they be, for there is none better.

B. O. Boswell brought to the Outlook office a rutabaga raised by Mrs. L. G. Ledin of Buckley avenue, Gilbert station, which weighed 14 1/2 pounds. Some rutabaga! Mrs. Ledin also had a cabbage that was 18 inches across the top, of the flat Dutch variety.

A. E. Sparks, J. W. Reed, Al. Lindsey, Mr. McCurdy and Judge Batis started this morning for Canby fair with a load of booster material and a sign on the auto, "Vote for Cascade county." They expect to do a lot of good work while away. There must be some fire from the amount of smoke they left behind their auto when leaving Estacada.

Geo. Morgan of San Francisco called on his old friends, the Boswells in Estacada last Sunday and spent the day visiting. He is here in employment of the Southern Pacific, electrifying thier lines at Cottage Grove. Mrs. Gosh and are two lovely daughters also called on Mrs. Boswell and enjoyed the afternoon drinking sweet cider and eating sweet apples.

J. R. Cassidy, Jack Baurbania and George Townsend have gone to Bull Run to do the painting of the interior of the new plant. The boys are all good fishermen as well as good painters.

R. M. Standish left this morning for the Canby fair. Bob is going to boost for Cascade county as well as the rest.

Dr. H. V. Adix went to Portland today with all his pockets full of Cascade literature for the new

county. The doctor is always at it, at home or away from home.

Miss Lillian Howe is working hard for the piano to be given away by Cruise Bros. to the most popular young lady in Estacada. Her many friends wish her success.

Parcels Post

Continued from page 1.

merce commission may prove interesting:

Parcels	Zones	Express
35 cents	1st	26 cts.
46 cents	2d	26 cts.
57 cents	3d	26 cts.
68 cents	4th	32 cts.
79 cents	5th	44 cts.
100 cents	6th	50 cts.
111 cents	7th	54 cts.
132 cents	8th	65 cts.

It will be understood that there are eight zones and that the heaviest parcel can weigh only 11 pounds at 12 cents a pound. Beyond 11 pounds the express companies will have it all just as at present.

Now, if the foregoing is not enough here is some more. The zones begin at 50 miles and increase gradually to 1800 miles with an increasing rate of postage for each zone. For the longest distance, say from Portland to New York, the rate is 12 cents a pound. From Chicago in any direction the zone system would increase as follows for 11 pounds: 150 mile zone, 46 cents; 300 mile zone, 57 cents; 600 mile zone, 68 cents; 1000 mile zone 79 cents; 1400 mile zone, 100 cents; 1800 mile zone, 114 cents over 1800 miles 132 cents. The first zone of 50 miles, which will be the most used, calls for 35 cents for 11 pounds.

Is anyone so dense now that he cannot see who will be the greatest beneficiaries of the parcels post except the express companies? If any enlightenment is necessary just reflect that Chicago is the home of the greatest mail order houses in the world and that it is almost in the center of the United States. Who will receive the greatest benefits from parcels post—the express companies, the mail order houses or the people?

Much more could be said upon this subject but the foregoing should be sufficient to set people to thinking who have never thought before. An equitable, just and uniform parcels post is to be desired. Are we going to have it? Think again.

NEXT GREAT EVENT!

Multnomah County Fair
AT GRESHAM, ORE.

Halloween comes at the end of October, but there'll be four dates ahead of it even more interesting and those are the dates of the Multnomah County Fair, October 2, 3, 4, 5, 1912
You will surely be there and enjoy the many features

Agriculture, Horticulture, Cattle, Horses, Poultry, Swine Art, Amusements, Races, Dancing, Etc. and the 1001 other features
