WANTS COMMON JUSTICE.

Working Men and Women of the State Oppose Malicious Laws.

In order to make a farce and a laughing stock of popular government and the initiative and referendum, two measures have been initiated by the big business interests which are deadly opposed to the rule of the common people. One proposed law limits free speech in cities of 5,000 or over, and is so glaring an example of class legislation that it is absolutely revolting to a right-thinking individual.

And the same people, who are insistent that free speech should be hampered, are asking the citizens of the state of Oregon to legislate against the people to spend their earnings where and how they please. A direct and clean-cut analysis of the law proves that a farmer could not ask his neighbors to not patronize an establishment that defrauded him, could not recommend any course of action or warn his neighbors against being taken in, too. The measure, however, is aimed at the organizations that are seeking to improve conditions for the common people. Eight thousand signatures to this bill were secured in Multnomah county, where the people on a referendum of a similar ordinance, defeated the forces of big business overwhelmingly. The working people of this county ask you, the voters of the state, to deal justly with them and defeat the anti-boycott and anti-free speech bills.
