MAJORITY RULE AMENDMENT.

Proposed by Initiative Petition.

For the amending of Section 1, Article IV, of the Constitution of the State of Oregon so as to require a majority of all electors voting at any election to adopt constitutional amendment and pass initiative measures and a majority vote only of electors voting thereon to reject measures referred to the people. Vote 322 X Yes.

The Majority Rule amendment, as shown above, is just as it will appear on the ballot. This is one of the most important measures the voters of Oregon will be called upon to decide at the coming election.

It will take from the minority the much-abused power to initiate and pass laws that only a small percentage of the people understand, and confirms the majority in its rights to rule.

Has it not been the purpose of the initiative to give the people—the majority—the right to rule? Surely. How can the majority rule if 25 or 30 per cent of the voters are allowed to enact laws?

Look at it this way and you will see the danger in the law which the proposed amendment will remedy! A certain clique, or certain interests desire a law or laws passed; they send out an army of paid canvassers to solicit names for the petitions at so much per name. The petition is filed and the measure goes on the ballot; those who have initiated the measure and those who signed the petitions—a small per cent of the electorate—vote for it, a few people who know that the proposed law is aimed at the rights of the people vote against it; but the majority who read in one paper that the law is a good one and who read in another paper that it is a bad law, frankly admit that they do not understand it, and refrain from voting. What is the result? The people who have initiated and who are deeply interested in the measure—small majority, about 25 or 30 per cent of the electorate—are counted for it, as are those who did not vote on it at all and it is declared passed.

That is what has happened in the past and what will happen at the coming election. That is Minority Rule, not Majority Rule.

The proposed amendment will safeguard the rights of the people and make the rule of the majority, majority rule indeed, and not minority rule as at present.

Is it right that our state constitution should work so that conditions could possibly arise when less than a majority of the votes cast at an election could amend the Constitution?

Is it not evident that this is the weak spot in our initiative law? Is it not true that all are affected by the passage of bad laws as well as good laws? Is it not true that all must pay the cost of such legislation?

Is it right to say that the approval of a minority of the total number of votes cast at an election should have the right to pass any law or amend the Constitution when all of the people of the state are affected by such legislation?

Is it not better to have the approval of a majority of the total number of votes cast without it?

If you will carefully consider the merits of the Majority Rule amendment you will vote so that in the future the voters of Oregon will take more interest in legislation, for it will have a tendency to restrain experimenters, causing less untried and experimental measures being proposed, thus giving the voter more time for the consideration of important measures.

By voting for the Majority Rule amendment you will correct the abusive use of the initiative law, and thereby preserve it in the State Constitution.

You, Mr. Voter, are to decide this very important question, and in order to decide it right you should vote 322 X Yes on November 5.
