A Correction.

The editor of the Gresham Outlook wishes to correct a statement in an article which appeared in the Outlook of November 1.

The Webb Cherry farm is not managed by C. M. Smith nor has any interest in said farm. The original Webb farm comprised of almost 200 acres was divided in December, 1910, between the three Webb sisters and since said division, the Webb Cherry farm has been the sole property of and managed by Mr. and Mrs. Lawrence R. Allen. They wish to correct the above mentioned article in that it is misleading to all who read it and furthermore since the famous Lambert cherries of the Webb Cherry farm are known from coast to coast they wish all inquiries regarding same to be addressed to the farm itself or management thereof.

The name Webb Cherry farm will be registered with Secretary of State at Salem, Oregon, immediately.

This object-lesson farm will be managed according to the best and latest methods without thought of making anything more than running expenses. It will be a show place, calculated to give instruction to farmers.

The co-operation of Luther Burbank, the plant wizard, has been secured and the fullest encouragement from the Oregon Agricultural College is expected. It will supplement the work of that institution. The farm will demonstrate farming in all its branches, including agriculture, horticulture, dairying, livestock breeding and even floriculture.
