Why Not Have Fresh Water In Your House

The comfort and convenience of a sanitary water system are not luxuries but modern necessities. Their successful operation depends on the delivery of water with a force or pressure. At a comparatively small expense water can be delivered under pressure in any isolated country home.

We are handling the Fairbanks Morse System, have installed several which are giving excellent satisfaction.

GRANGE JOY RIDERS SURPRISE MR. PARSONS

The Grangers' Transportation company was organized on Wednesday, and its first business was to take all the stockholders, members and officers out for a surprise party that evening to the home of W. B. Parsons and wife on the Beaver creek grade.

The whole train was made up in Gresham and consisted of H. E. Davis' auto truck made over for the occasion. The crew was made up of men much to the disgust of the women stockholders who lost their rights on this occasion because it was considered beyond their abilities to do business in opposition to co-operative industries. F. C. Hodge was conductor; W. H. Congdon, engineer; H. E. Davis, fireman; George Sleret and John Fieldhouse, brakemen. The latter rode on the rear and carried blocks of wood to "chock" the wheels when necessary. Mr. Davis fixed up a roost underneath with a monkey wrench in his hand, while Mr. Congdon carried the gas-o-line in his head.

The stockholders in the company are Mr. and Mrs. H. E. Davis, Mr. and Mrs. Theodore Brugger, Mr. and Mrs. F. C. Hodge, Mr. and Mrs. George Sleret, Mr. and Mrs. Dan Metzger, Mr. and Mrs. W. H. Congdon, Mr. and Mrs. George Leslie, Mr. and Mrs. Fred Fieldhouse, Mr. and Mrs. Kavanaugh, Mrs. E. E. Welling and children, John Fieldhouse and Miss Allen.

Mr. and Mrs. Parsons said it was the first time they were ever surprised and nobody blames them for saying it. After eating everything in sight which they did before 10 o'clock, the company came back to Gresham and is making plans to increase their capital stock and make other excursions.
