

GRESHAM LADIES TAKE THE LEAD

Their women of Gresham celebrated their first voting day by holding a rally at the Commercial club hall in the evening and organizing the "Gresham Council of Women Voters."

The civic improvements will be enlarged upon by inaugurating a children's league and educating the younger generation in matters of a city beautiful and sanitary.

The patronage of our home industries will be a predominating sentiment among the members. The council will endeavor to secure factories for Gresham, fully realizing that a pay roll and its yearly increase means greater progress for the community.

There are many buildings now being planned, and the women's council will strive to have materials bought as far as possible in Multnomah county.

So enthusiastically has the Woman's Council taken up these practical objects that women in other towns of Gresham will have to "go some" if they catch up with the women of Gresham.

The oldest member of the "Gresham Council of Women Voters" is Mrs. J. P. Powell, aged 87 years and widow of Dr. J. P. Powell one of the early pioneers of the valley.

A public rally has been arranged for Tuesday evening, Dec. 17, at which time Samuel J. Hill, the "good roads man of America," will be present by invitation with stereopticon views.

MANY TRADERS INVAD CITY ON FIRST SALE DAY

Gresham's first great sales day proved that co-operative advertising and selling of goods can be made an unqualified success.

Those not directly engaged in the line of selling goods were all in sympathy with the big department store idea and helped in every way.

First Meeting in New City Hall. An adjourned meeting of the city council was held last night at which the recent vote for city officers was canvassed and election declared of the successful candidates.

CITY ELECTION AT GRESHAM

Tuesday's election for city officers resulted in the choice of six out of the seven retiring servants of the municipality—the other one having declined to be a candidate after being nominated for another term in the city council.

All of them had opposition except D. M. Roberts for recorder, but the strongest fight was centered on the office for city marshal.

The councilmen are E. G. Kardell, M. D. Kern, both re-elected, and L. L. Kidder. Mr. Kidder is the one new candidate chosen in the place of H. L. St. Clair, who voluntarily declined to qualify for the election after being nominated at the mass convention.

DRAMATIC CLOSE OF LAND SHOW

As announced in the last issue of the Outlook, Carrol S. Smith has returned from the Minneapolis land show, and he is full of enthusiasm over the results of the venture and the results of his trip.

The professor then told of the different crops that can be grown in this state and of the livestock development. He also spoke of the great possibilities that await us in almost every industry including fruit growing, dairying, stock raising, mining, forestry and agriculture in all its phases, and closed by saying:

"Should it be asked why the resources of Oregon have not been developed to a greater extent, the answer is easy. The people of Oregon have not let the world know until recently about their unearthen treasures, and vast areas in the state are yet without railroads. In the absence of these, settlement comes slowly. Even now there is a strip of country extending from Vale to Prineville and Bend, a distance of practically 300 miles, without a railroad. But the railroads will come. The discussion has considered only the possible resources in former years."
