Born in a Taxicab.

Born in a taxi on the 12th day of the 12th month of the 12th year of the century.

What a story for little baby boy Sinclair to tell in after days. Yet that is actually what happened, for yesterday morning at 7 o'clock from the window of a taxicab this sturdy son of Mr. and Mrs. John W. Sinclair first saw the light of day.

Just when speed and clear road were vitally essential for the occupants of the car, on the way to a hospital, there lazily rumbled along the track a heavy freight train, blocking the taxi's progress and to the mother in her anxiety, the train seemed almost to halt and waver midway across the highway. Then a little further on a fruit wagon, its driver still partly in the arms of Morpheus, delayed the fateful journey of the cab by its perambulations and so the child was born, not in a cot in the Immanuel hospital, but in surroundings far more romantic.

The proud father, who is an employe of the city water department, at Bull Run, was delighted to hear that both the mother and child are "doing fine."

Renouncing his desire to be appointed to the city detective force because of a technical difficulty which has arisen to his reinstatement, Archie F. Leonard, Sheriff Stevens' chief criminal deputy, has accepted a position as assistant chief special agent for the O.-W. R. & N. Co. under E. B. Wood. He will take up his new duties as soon as Sheriff Stevens' term expires, January 6.

AN IMPORTANT QUESTION

Am I developing a cash reserve which will provide an income or enable me to grasp my opportunity the moment it arrives

Do you know of a better way to develop a reserve than to deposit your income in the First State Bank and pay it out by check?

Do you know of a better way to avoid controversy in the payment of bills or the necessity of paying bills twice?

That plan will give you an incentive to keep your balance growing, and your account, large or small, will be welcome.

NEW REGULATIONS FOR PARCELS POST

Regulations to cover the workings of the new parcel post system, which is to go into operation on January 1, were made public by Postmaster-General Hitchcock yesterday.

The new system will be effective throughout the entire postal service at the same time. Every precaution will be taken by the Postoffice department to have the mails moved with the usual dispatch and all postmasters, superintendents and inspectors have been directed to familiarize themselves and their subordinates with every phase of the new system.

Regulations provide that parcels of merchandise, including farm and factory products (but not books and printed matter) of almost every description up to 11 pound in weight and measuring as much as six feet in length and girth combined, except those calculated to do injury to the mails in transit, may be mailed at any postoffice for delivery to any address in the country.

Delivery will be made to the homes of people living on rural or star routes as well as to those living in cities and towns where there is delivery by carrier. Where there is no delivery by carrier, the parcels will go to the postoffices.

The postage rate for the first zone, that is, within the distance not exceeding 50 miles, will be 5 cents for the first pound and 3 cents for each additional pound.

The rates increase for each successive one of the eight zones into which the country is divided, the maximum rate being 12 cents a pound, which will carry a parcel across the continent or even to Alaska and the Philippines.

For a fee of 10 cents a parcel may be insured and if the parcel is lost in the mails an indemnity to the amount of its value, not to exceed \$50, will be paid.

The law provides for the use of distinctive postage stamps and there is now being distributed to Postmasters for use in the parcels post system a set of stamps of 12 denominations. Parcels post maps, with accompanying guides, are to be sold to the public at their cost, 75 cents.
