EQUITY SOCIETY FORGES AHEAD

The warehouse company which filed incorporation papers a few weeks ago for a central warehouse in Portland is meeting with good success in the disposition of stock. Five locals have reported having taken almost 100 shares, a considerable part having been paid in full.

There is good reason to believe that this company will be in shape to do business this summer and a special effort will be made to get a cannery in operation in Portland before the strawberry season advances very far.

Of course the question of funds is of the greatest importance and it will take the co-operation of the farmers of this county, as well as those of Clackamas, Washington, Yamhill, Columbia, and Marion counties to bring this matter to a successful issue. This is the one thing that is needed to enable the Gresham Equity market to operate successfully as the matter of handling and disposing of produce after it reaches the city is where all small outside organizations are lame. Every member in this county should put his shoulder to the wheel and boost for the Equity. That is what the members in about forty new locals are doing and it is united action that will bring gratifying results.

Let every member feel a personal interest in this matter, resolve to attend the next meeting of his local union if he has been careless in that matter and urge his neighbor to come with him. All farmers are cordially invited to call at the Portland office at No. 331 Railway Exchange building to which removal has recently been made.

The Oregon Courier has become the official paper for the Farmers' Society of Equity in Clackamas county and is devoting several columns to boosting the organization. Several papers in other counties are about to follow suit and the Equity system which is gaining in strength and favor continually is likely to become a very popular organization in the near future.
