Master Maurice Mann has just received a new species of guinea pigs which is of the Angora type, from back East, which he is going to use for breeding purposes only. They are much unlike those at hand now although having a large assortment of all descriptions and colors. He has never been quite able to make a success of raising the Angora, but having a larger number this time to start with, he hopes to be able to make it a success from now on. He also has sold seventy-five more of the little fellows lately, and just received a letter from a man in Nebraska stating he would take all he could raise till further notice. The attendance at the school is still below the normal, caused mostly by severe colds among the children of the lower grades.

Until the rain came on Wednesday work was being pushed right along on the excavation for the new Morand building.

Frisbe Maulding has returned from an extended trip through central and southern California. Mr. Maulding visited Frisco and Los Angeles, stopping for a couple of months near the latter places where he worked in an orange packing house as an expert packer and grader. He reports that on account of a part of the orange and lemon crops being injured by frosts, there is a poor sale for any California's fruit of this kind. Eastern buyers take advantage of the situation and condemn the whole output of the state. On his way home Mr. Maulding stopped at Bakersfield, Fresno being the great peach and grape producing center of the state. Mr. Maulding describes the country here as very beautiful to the eye, with a deep, rich soil and a perfect winter climate. At Stockton he saw the spuds in all their glory. He says it's no wonder spuds are cheap here as he saw more in one day than he had seen in all his life. Fields and fields of eighty to six hundred acres. At Frisco Mr. Maulding took the steamer for home. He says he likes the southland so well he is going back in a few weeks.

This is the season of the year when mothers feel very much concerned over the frequent colds contracted by their children, and have abundant reason for it as every cold weakens the lungs, lowers the vitality and paves the way for the more serious diseases that so often follow. Chamberlain's Cough Remedy is famous for its cures, and is pleasant and safe to take. For sale by Gresham Drug Co. and Dealers everywhere.
